Safe Harbor Statement under the Private Securities Litigation Reform Act of 1995

This Form 10-Q includes “forward-looking statements.” Forward-looking statements include statements concerning our plans, objectives, goals, strategies, future events, future revenues or performance, capital expenditures, plans or intentions relating to acquisitions, our competitive strengths and weaknesses, our business strategy and the trends we anticipate in the industries in which we operate and other information that is not historical information. When used in this Form 10-Q, the words “estimates,” “expects,” “anticipates,” “projects,” “plans,” “intends,” “believes” and variations of such words or similar expressions are intended to identify forward-looking statements. All forward-looking statements, including, without limitation, our future earnings expectations, are based upon our current expectations and various assumptions. Our expectations, beliefs and projections are expressed in good faith, and we believe there is a reasonable basis for them, but we cannot assure you that our expectations, beliefs and projections will be realized.

There are a number of risks and uncertainties that could cause our actual results to differ materially from the forward-looking statements contained in this Form 10-Q. Important factors that could cause our actual results to differ materially from the forward-looking statements we make in this Form 10-Q are set forth in the Form 10-K for the fiscal year ended September 30, 2017, including the factors described in the section entitled “Item 1A – Risk Factors.” If any of these risks or uncertainties materializes, or if any of our underlying assumptions are incorrect, our actual results may differ significantly from the results that we express in, or imply by, any of our forward-looking statements. We do not undertake any obligation to revise these forward-looking statements to reflect future events or circumstances, except as required by law. Presently known risk factors include, but are not limited to, the following factors:

- seasonality and fluctuations in our operating results and cash flow;
- fluctuations in market prices for seeds and grains and other raw materials;
- our inability to pass through cost increases in a timely manner;
- our dependence upon key executives;

Table of Contents

- risks associated with new product introductions, including the risk that our new products will not produce sufficient sales to recoup our investment;
- fluctuations in energy prices, fuel and related petrochemical costs;
- declines in consumer spending during economic downturns;
- inflation, deflation and other adverse macro-economic conditions;
- supply shortages in pet birds, small animals and fish;
- adverse weather conditions;
- risks associated with our acquisition strategy;
- access to and cost of additional capital;
- dependence on a small number of customers for a significant portion of our business;
- consolidation trends in the retail industry;
- competition in our industries;
- potential goodwill or intangible asset impairment;
- continuing implementation of an enterprise resource planning information technology system;
- our inability to protect our trademarks and other proprietary rights;
- potential environmental liabilities;
- risk associated with international sourcing;
- potential impacts of tariffs or trade war;
- litigation and product liability claims;
- regulatory issues;
- the impact of product recalls;
- risk associated with litigation arising from our business;
- potential costs and risks associated with actual or potential cyber attacks;
- the impact of the U.S. Tax Cuts and Jobs Act;
- the voting power associated with our Class B stock; and
- potential dilution from issuance of authorized shares.

CENTRAL GARDEN & PET COMPANY
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
Three and Nine Months Ended June 30, 2018
(Unaudited)

1. Basis of Presentation

The condensed consolidated balance sheets of Central Garden & Pet Company and subsidiaries (the “Company” or “Central”) as of June 30, 2018 and June 24, 2017, the condensed consolidated statements of operations and the condensed consolidated statements of comprehensive income for the three and nine months ended June 30, 2018 and June 24, 2017 and the condensed consolidated statements of cash flows for the nine months ended June 30, 2018 and June 24, 2017 have been prepared by the Company, without audit. In the opinion of management, the interim financial statements include all normal recurring adjustments necessary for a fair statement of the results for the interim periods presented.

For the Company’s foreign business in the UK, the local currency is the functional currency. Assets and liabilities are translated using the exchange rate in effect at the balance sheet date. Income and expenses are translated at the average exchange rate for the period. Deferred taxes are not provided on translation gains and losses because the Company expects earnings of its foreign subsidiary to be permanently reinvested. Transaction gains and losses are included in results of operations.

Due to the seasonal nature of the Company’s garden business, the results of operations for the three and nine months ended June 30, 2018 are not indicative of the operating results that may be expected for the entire fiscal year. These interim financial statements should be read in conjunction with the annual audited financial statements, accounting policies and financial notes thereto, included in the Company’s 2017 Annual Report on Form 10-K, which has previously been filed with the Securities and Exchange Commission. The September 30, 2017 balance sheet presented herein was derived from the audited financial statements.

Noncontrolling Interest

Noncontrolling interest in the Company’s condensed consolidated financial statements represents the 20% interest not owned by Central in a consolidated subsidiary. Since the Company controls this subsidiary, its financial statements are consolidated with those of the Company, and the noncontrolling owner’s 20% share of the subsidiary’s net assets and results of operations is deducted and reported as noncontrolling interest on the consolidated balance sheets and as net income (loss) attributable to noncontrolling interest in the consolidated statements of operations. See Note 8, Supplemental Equity Information, for additional information.

Restricted Cash

Restricted cash includes cash and highly liquid instruments that are used as collateral for stand-alone letter of credit agreements related to normal business transactions. These agreements require the Company to maintain specified amounts of cash as collateral in segregated accounts to support the letters of credit issued thereunder, which will affect the amount of cash the Company has available for other uses. The amount of cash collateral in these segregated accounts was approximately \$14.0 million, \$11.0 million and \$12.6 million as of June 30, 2018, June 24, 2017 and September 30, 2017, respectively, and is reflected in restricted cash on the condensed consolidated balance sheets.

Recent Accounting Pronouncements and U.S. Tax Reform

Accounting Pronouncements Recently Adopted

Stock Based Compensation

In March 2016, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) 2016-09, *Stock Compensation*, which is intended to simplify several aspects of the accounting for share-based payment award transactions. ASU 2016-09 (i) requires all income tax effects of awards to be recognized in the income statement when the awards vest or are settled, (ii) requires classification of excess tax benefits as an operating activity in the statement of cash flows rather than a financing activity, (iii) eliminates the requirement to defer recognition of an excess tax benefit until the benefit is realized through a reduction to taxes payable, (iv) modifies statutory withholding tax requirements and (v) provides for a policy election to account for forfeitures as they occur. The Company adopted ASU 2016-09 on October 1, 2017. As a result of the adoption of ASU 2016-09, the Company now records excess tax benefits currently in its provision for income taxes. Upon adoption, the Company determined it had no previously unrecognized excess tax benefits. Additionally, the Company elected to account for forfeitures as they occur using a modified retrospective transition method, which requires the Company to record a cumulative-effect adjustment to accumulated earnings, and the Company determined that the cumulative impact was immaterial. The Company presents its excess tax benefits as a component of operating cash flows rather than financing cash flows on a prospective basis.

Inventory Measurement

In July 2015, the FASB issued ASU 2015-11 (ASU 2015-11), *Simplifying the Measurement of Inventory*. Under ASU 2015-11, inventory will be measured at the “lower of cost and net realizable value” and options that currently exist for “market value” will be eliminated. The standard defines net realizable value as the “estimated selling prices in the ordinary course of business, less reasonably predictable costs of completion, disposal, and transportation.” No other changes were made to the current guidance on inventory measurement. The Company adopted ASU 2015-11 on October 1, 2017. The adoption of ASU 2015-11 did not have a material impact on the Company's consolidated financial statements.

Accounting Standards Not Yet Adopted

Revenue Recognition

In May 2014, the FASB issued Accounting Standards Update No. 2014-09 (ASU 2014-09), *Revenue from Contracts with Customers*. This update was issued as Accounting Standards Codification Topic 606. The core principle of this amendment is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. On July 9, 2015, the FASB deferred the effective date of ASU 2014-09 for one year. ASU 2014-09 is now effective for the Company in the first quarter of its fiscal year ending September 28, 2019.

The guidance permits two implementation approaches, one requiring retrospective application of the new standard with restatement of prior years and one requiring prospective application of the new standard with disclosure of results under old standards. The Company expects to adopt under the modified retrospective approach, which recognizes the cumulative effect of adoption as an adjustment to retained earnings at the date of initial application. The Company has made progress on its evaluation of the amended guidance, including identification of revenue streams and customer contract reviews. The Company is applying the five-step model to those contracts and revenue streams to evaluate the quantitative and qualitative impacts the new standard will have on its business and reported revenues. Additionally, the Company is also analyzing the impact of the new standard on its current accounting policies and internal controls.

The majority of the Company's revenue is generated from sales of pet and garden products, which will continue to be recognized when control of the goods is transferred to the customer. The Company generally anticipates having substantially similar performance obligations under the amended guidance as compared with deliverables and units of account currently being recognized. The Company intends to make policy elections within the amended standard that are consistent with its current accounting. The Company does not expect the adoption of this amended standard to have a material impact on its condensed consolidated financial statements. The Company anticipates adopting this amended standard on a modified retrospective basis in its first quarter of fiscal 2019.

Leases

In February 2016, the FASB issued ASU 2016-02 (ASU 2016-02), *Leases (Topic 842)*. ASU 2016-02 requires companies to generally recognize on the balance sheet operating and financing lease liabilities and corresponding right-of-use assets. ASU 2016-02 is effective for the Company in its first quarter of fiscal 2020 on a modified retrospective basis and earlier adoption is permitted. The Company is currently evaluating the impact of its pending adoption of ASU 2016-02 on its consolidated financial statements, and it currently expects that most of its operating lease commitments will be subject to the new standard and the Company will record material long-term operating lease liabilities and long-term right-of-use assets upon the adoption of ASU 2016-02.

Statement of Cash Flows

In August 2016, the FASB issued ASU 2016-15, *Statement of Cash Flows (Topic 230): Classification of Certain Cash Receipts and Cash Payments* (ASU 2016-15). The ASU provides additional clarification guidance on the classification of certain cash receipts and payments in the statement of cash flows. The new guidance is effective for the Company in the first quarter of its fiscal year ending September 28, 2019. The Company is currently evaluating the impact the adoption of ASU 2016-15 will have on its consolidated financial statements.

In November 2016, the FASB issued ASU No. 2016-18, *Statement of Cash Flows (Topic 230): Restricted Cash (a consensus of the FASB Emerging Issues Task Force)* (ASU 2016-18). This ASU clarifies the presentation of restricted cash on the statement of cash flows. Amounts generally described as restricted cash and restricted cash equivalents should be included with cash and cash equivalents when reconciling the beginning and ending cash balances on the statement of cash flows. ASU 2016-18 is effective for fiscal years, and interim periods within those fiscal years beginning after December 15, 2017, or the Company's first quarter of fiscal 2019. The Company held restricted cash balances of \$14.0 million, \$11.0 million and \$12.6 million as of June 30, 2018, June 24, 2017 and September 30, 2017, respectively. The Company does not anticipate the adoption of ASU 2016-18 will have a material impact on its consolidated financial statements and related disclosures.

Business Combinations

In January 2017, the FASB issued ASU No. 2017-01, *Clarifying the Definition of a Business* (ASU 2017-01), which requires an evaluation of whether substantially all of the fair value of assets acquired is concentrated in a single identifiable asset or a group of similar identifiable assets. If so, the transaction does not qualify as a business. The guidance also requires an acquired business to include at least one substantive process and narrows the definition of outputs. The Company is required to apply this guidance to annual periods beginning after December 15, 2017, including interim periods within those periods, or the Company's first quarter of fiscal 2019. The adoption of this ASC may have an impact on accounting for any future acquisitions the Company may have.

Goodwill

In January 2017, the FASB issued ASU No. 2017-04, *Intangibles - Goodwill and Other: Simplifying the Test for Goodwill Impairment*. The new guidance simplifies the subsequent measurement of goodwill by removing the second step of the two-step impairment test. The amendment requires an entity to perform its annual or interim goodwill impairment test by comparing the fair value of a reporting unit with its carrying amount. An entity still has the option to perform the qualitative assessment for a reporting unit to determine if the quantitative impairment test is necessary. The new guidance is effective for annual periods or any interim goodwill impairment tests in fiscal years beginning after December 15, 2019, or the Company's first quarter of fiscal 2021. The amendment should be applied on a prospective basis. Based on the Company's most recent annual goodwill impairment test performed as of June 25, 2017, there were no reporting units for which the carrying amount of the reporting unit exceeded its fair value; therefore, this ASU would not currently have an impact on the Company's consolidated financial statements and related disclosures. However, if upon adoption the carrying amount of a reporting unit exceeds its fair value, the Company would be impacted by the amount of impairment recognized.

Income Taxes

On December 22, 2017, the U.S. Tax Cuts and Jobs Act (the "Tax Reform Act") was signed into law by the U.S. government. The Tax Reform Act significantly revised the U.S. corporate income tax code by, among other things, lowering the U.S. federal corporate tax rate from 35% to 21% effective January 1, 2018. U.S. GAAP requires that the impact of tax legislation be recognized in the period in which the law was enacted.

The Securities and Exchange Commission issued Staff Accounting Bulletin No. 118 ("SAB 118") on December 22, 2017. This guidance allows registrants a "measurement period," not to exceed one year from the date of enactment, to complete their accounting for the tax effects of the Tax Reform Act. SAB 118 further directs that during the measurement period, registrants who are able to make reasonable estimates of the tax effects of the Tax Reform Act should include those amounts in their financial statements as "provisional" amounts. Registrants should reflect adjustments over subsequent periods as they are able to refine their estimates and complete their accounting for the tax effects of the Tax Reform Act. The Company has made reasonable estimates and recorded provisional amounts within the meaning of SAB 118. Any adjustments recorded to the provisional amounts through the first quarter of fiscal 2019 will be included as an adjustment to tax expense. The provisional amounts incorporate assumptions made based upon the Company's current interpretation of the Tax Reform Act and may change as the Company receives additional clarification and implementation guidance.

In March 2018, the FASB issued ASU No. 2018-05, *Income Taxes (Topic 740): Amendments to SEC Paragraphs Pursuant to SEC Staff Accounting Bulletin No. 118*. This ASU adds guidance that answers questions regarding how certain income tax effects from the Tax Reform Act should be applied to companies' financial statements. The guidance also lists which financial statement disclosures are required under a measurement period approach.

As a result of the Tax Reform Act, the Company recorded a provisional tax benefit of \$16.3 million due to the remeasurement of its deferred tax assets and liabilities in the three months ended December 30, 2017. The Company has not made any changes to this provisional tax benefit during the period ended June 30, 2018. This tax benefit represents provisional amounts and the Company's current best estimates.

2. Fair Value Measurements

ASC 820 establishes a single authoritative definition of fair value, a framework for measuring fair value and expands disclosure of fair value measurements. ASC 820 requires financial assets and liabilities to be categorized based on the inputs used to calculate their fair values as follows:

Level 1 - Quoted prices in active markets for identical assets or liabilities.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3 - Unobservable inputs for the asset or liability, which reflect the Company's own assumptions about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

The Company's financial instruments include cash and equivalents, short term investments consisting of bank certificates of deposit, accounts receivable and payable, derivative instruments, short-term borrowings, and accrued liabilities. The carrying amount of these instruments approximates fair value because of their short-term nature.

Assets and Liabilities Measured at Fair Value on a Recurring Basis

The following table presents the Company's financial assets and liabilities measured at fair value on a recurring basis based upon the level within the fair value hierarchy in which the fair value measurements fall, as of June 30, 2018 (in thousands):

	Level 1	Level 2	Level 3	Total
Liabilities:				
Liability for contingent consideration (a)	\$ —	\$ —	\$ 7,645	\$ 7,645
Total liabilities	\$ —	\$ —	\$ 7,645	\$ 7,645

The following table presents the Company's financial assets and liabilities measured at fair value on a recurring basis based upon the level within the fair value hierarchy in which the fair value measurements fall, as of June 24, 2017 (in thousands):

	Level 1	Level 2	Level 3	Total

The following table presents our financial assets and liabilities at fair value on a recurring basis based upon the level within the fair value hierarchy in which the fair value measurements fall, as of September 30, 2017:

	Level 1	Level 2	Level 3	Total
Liabilities:				
Liability for contingent consideration (a)	\$ —	\$ —	\$ 9,343	\$ 9,343
Total liabilities	\$ —	\$ —	\$ 9,343	\$ 9,343

(a) The liability for contingent consideration relates to an earn-out for B2E, acquired in December 2012, future performance-based contingent payments for Hydro-Organics Wholesale, Inc., acquired in October 2015, and future performance-based contingent payment for Segrest, Inc., acquired in October 2016. The fair value of the estimated contingent consideration arrangement is determined based on the Company's evaluation as to the probability and amount of any earn-out that will be achieved based on expected future performance by the acquired entity. This is presented as part of long-term liabilities in the Company's consolidated balance sheets.

The following table provides a summary of the changes in fair value of the Company's Level 3 financial instruments for the periods ended June 30, 2018 and June 24, 2017 (in thousands):

Assets and Liabilities Measured at Fair Value on a Non-Recurring Basis

The Company measures certain non-financial assets and liabilities, including long-lived assets, goodwill and intangible assets, at fair value on a non-recurring basis. Fair value measurements of non-financial assets and non-financial liabilities are used primarily in the impairment analyses of long-lived assets, goodwill and other intangible assets. During the periods ended June 30, 2018 and June 24, 2017, the Company was not required to measure any significant non-financial assets and liabilities at fair value.

Fair Value of Other Financial Instruments

In December 2017, the Company issued \$300 million aggregate principal amount of 5.125% senior notes due February 2028 (the "2028 Notes"). The estimated fair value of the Company's 2028 Notes as of June 30, 2018 was \$278.7 million compared to a carrying value of \$295.5 million.

In November 2015, the Company issued \$400 million aggregate principal amount of 6.125% senior notes due November 2023 (the "2023 Notes"). The estimated fair value of the Company's 2023 Notes as of June 30, 2018, June 24, 2017 and September 30, 2017 was \$414.5 million, \$430.5 million and \$427.9 million, respectively, compared to a carrying value of \$395.8 million, \$395.0 million and \$395.2 million, respectively.

3. Acquisitions

General Pet Supply

On April 2, 2018, the Company purchased all of the business assets of General Pet Supply, a leading Midwestern U.S. supplier of pet food and supplies for a purchase price of approximately \$24.5 million. The purchase price exceeded the estimated fair value of the net tangible assets acquired by approximately \$14.1 million, which is included in other assets in the Company's condensed consolidated balance sheet as of June 30, 2018. The Company has not yet finalized the allocation of the purchase price to the fair value of the tangible assets, intangible assets and liabilities acquired. Financial results of General Pet Supply have been included in the results of operations within the Pet segment since the date of acquisition. The acquisition is expected to broaden Central's national pet supplies distribution footprint, expand its food distribution business, and provide the Company with access to the veterinary channel.

Bell Nursery Holdings, LLC

On March 12, 2018, the Company purchased Bell Nursery Holdings, LLC ("Bell"), a leading grower and distributor of live flowers and plants in the mid-Atlantic region of the United States, for a purchase price of approximately \$61 million plus contingent consideration of up to \$10 million. The purchase price exceeded the estimated fair value of the net tangible assets acquired by approximately \$11.6 million, which is included in other assets in the condensed consolidated balance sheet as of June 30, 2018. The Company has not yet finalized the allocation of the purchase price to the fair value of the tangible assets, intangible assets and liabilities acquired. Financial results of Bell have been included in the results of operations within the Garden segment since the date of acquisition. The acquisition is expected to complement the Company's existing garden portfolio.

K&H Manufacturing

On April 28, 2017, the Company purchased K&H Manufacturing ("K&H"), a producer of premium pet supplies and the largest marketer of heated pet products in the country, for a purchase price of approximately \$48.0 million. The purchase price exceeded the estimated fair value of the net tangible assets acquired by approximately \$41.8 million, of which \$29.2 million was allocated to identified intangible assets and approximately \$12 million is included in goodwill in the Company's condensed consolidated balance sheet as of June 30, 2018. Financial results of K&H have been included in the results of operations within the Pet segment since the date of acquisition. The following table summarizes the purchase price and recording of fair values of the assets acquired and liabilities assumed as of the acquisition date and subsequent adjustments.

Proforma financial information has not been presented as the General Pet Supply, Bell and K&H acquisitions were not considered material to the Company's overall consolidated financial statements during the periods presented.

4. Inventories, net

Inventories, net of allowance for obsolescence, consist of the following (in thousands):

	June 30, 2018	June 24, 2017	September 30, 2017
Raw materials	\$ 118,826	\$ 118,097	\$ 116,591

Total inventories, net	<u>\$ 428,007</u>	<u>\$ 383,449</u>	<u>\$ 382,101</u>

5. Goodwill

The Company tests goodwill for impairment annually (as of the first day of the fourth fiscal quarter), or whenever events occur or circumstances change that would more likely than not reduce the fair value of a reporting unit below its carrying amount, by first assessing qualitative factors to determine whether it is more likely than not the fair value of the reporting unit is less than its carrying amount. If it is determined that it is more likely than not the fair value of the reporting unit is greater than its carrying amount, it is unnecessary to perform the two-step goodwill impairment test. If it is determined that it is more likely than not that the fair value of the reporting unit is less than its carrying amount, the two-step test is performed to identify potential goodwill impairment. Based on certain circumstances, the Company may elect to bypass the qualitative assessment and proceed directly to performing the first step of the two-step goodwill impairment test, which compares the fair value of the Company's reporting units to their related carrying values, including goodwill. If the fair value of the reporting unit is less than its carrying value, the Company performs an additional step to determine the implied fair value of goodwill associated with that reporting unit. The implied fair value of goodwill is determined by first allocating the fair value of the reporting unit to all of its assets and liabilities and then computing the excess of the reporting unit's fair value over the amounts assigned to the assets and liabilities. If the carrying value of goodwill exceeds the implied fair value of goodwill, such excess represents the amount of goodwill impairment, and, accordingly, the Company recognizes such impairment. The Company's goodwill impairment analysis also includes a comparison of the aggregate estimated fair value of its two reporting units to the Company's total market capitalization.

6. Other Intangible Assets

Other acquired intangible assets include contract-based and technology-based intangible assets.

As part of its acquisition of K&H in the second quarter of fiscal 2017, the Company acquired approximately \$7.9 million of indefinite-lived marketing-related intangible assets and \$21.3 million of customer-related intangible assets, which will be amortized over a ten year life.

The Company evaluates long-lived assets, including amortizable and indefinite-lived intangible assets, for impairment whenever events or changes in circumstances indicate the carrying value may not be recoverable. The Company evaluates indefinite-lived intangible assets on an annual basis. Other factors indicating the carrying value of the Company's amortizable intangible assets may not be recoverable were not present in fiscal 2017 or during the nine months ended June 30, 2018, and accordingly, no impairment testing was performed on these assets.

The Company amortizes its acquired intangible assets with definite lives over periods ranging from 3 to 25 years; over weighted average remaining lives of 4 years for marketing-related intangibles, 10 years for customer-related intangibles and 11 years for other acquired intangibles. Amortization expense for intangibles subject to amortization was approximately \$2.9 million and \$1.4 million for the three months ended June 30, 2018 and June 24, 2017, respectively, and \$8.7 million and \$4.3 million for the nine months ended June 30, 2018 and June 24, 2017, respectively, and is classified within operating expenses in the condensed consolidated statements of operations. Estimated annual amortization expense related to acquired intangible assets in each of the succeeding five years is estimated to be approximately \$10 million per year from fiscal 2018 through fiscal 2022.

Senior Notes

\$300 Million 5.125% Senior Notes

On December 14, 2017, the Company issued \$300 million aggregate principal amount of 5.125% senior notes due February 2028 (the "2028 Notes"). The Company will use the net proceeds from the offering to finance future acquisitions and for general corporate purposes.

The Company incurred approximately \$4.8 million of debt issuance costs in conjunction with this transaction, which included underwriter fees and legal, accounting and rating agency expenses. The debt issuance costs are being amortized over the term of the 2028 Notes.

The 2028 Notes require semiannual interest payments on February 1 and August 1, commencing August 1, 2018. The 2028 Notes are unconditionally guaranteed on a senior basis by the Company's existing and future domestic restricted subsidiaries who are borrowers under or guarantors of Central's senior secured revolving credit facility or who guarantee the 2023 Notes.

The Company may redeem some or all of the 2028 Notes at any time, at its option, prior to January 1, 2023 at the principal amount plus a "make whole" premium. At any time prior to January 1, 2021, the Company may also redeem, at its option, up to 35% of the original

aggregate principal amount of the notes with the proceeds of certain equity offerings at a redemption price of 105.125% of the principal amount of the notes. The Company may redeem some or all of the 2028 Notes, at its option, at any time on or after January 1, 2023 for 102.563%, on or after January 1, 2024 for 101.708%, on or after January 1, 2025 for 100.854%, and on or after January 1, 2026 for 100.0%, plus accrued and unpaid interest.

The holders of the 2028 Notes have the right to require us to repurchase all or a portion of the 2028 Notes at a purchase price equal to 101% of the principal amount of the notes repurchased, plus accrued and unpaid interest upon the occurrence of a change of control.

The 2028 Notes contain customary high yield covenants, including covenants limiting debt incurrence and restricted payments, subject to certain baskets and exceptions. The Company was in compliance with all financial covenants as of June 30, 2018.

\$400 Million 6.125% Senior Notes

On November 9, 2015, the Company issued \$400 million aggregate principal amount of 6.125% senior notes due November 2023 (the "2023 Notes"). In December 2015, the Company used the net proceeds from the offering, together with available cash, to redeem its \$400 million aggregate principal amount of 8.25% senior subordinated notes due March 1, 2018 ("2018 Notes") at a price of 102.063% of the principal amount and to pay fees and expenses related to the offering. The 2023 Notes are unsecured senior obligations and are subordinated to all of the Company's existing and future secured debt, including the Company's Credit Facility, to the extent of the value of the collateral securing such indebtedness.

The Company incurred approximately \$6.3 million of debt issuance costs in conjunction with these transactions, which included underwriter fees and legal, accounting and rating agency expenses. The debt issuance costs are being amortized over the term of the 2023 Notes.

The 2023 Notes require semiannual interest payments on May 15 and November 15. The 2023 Notes are unconditionally guaranteed on a senior basis by each of the Company's existing and future domestic restricted subsidiaries which are borrowers under or guarantors of Central's senior secured revolving credit facility. The 2023 Notes are unsecured senior obligations and are subordinated to all of the Company's existing and future secured debt, including the Company's Credit Facility, to the extent of the value of the collateral securing such indebtedness.

The Company may redeem some or all of the 2023 Notes at any time, at its option, prior to November 15, 2018 at the principal amount plus a "make whole" premium. At any time prior to November 15, 2018, the Company may also redeem, at its option, up to 35% of the original aggregate principal amount of the notes with the proceeds of certain equity offerings at a redemption price of 106.125% of the principal amount of the notes. The Company may redeem some or all of the 2023 Notes, at its option, at any time on or after November 15, 2018 for 104.594%, on or after November 15, 2019 for 103.063%, on or after November 15, 2020 for 101.531% and on or after November 15, 2021 for 100%, plus accrued and unpaid interest.

The holders of the 2023 Notes have the right to require the Company to repurchase all or a portion of the 2023 Notes at a purchase price equal to 101% of the principal amount of the notes repurchased, plus accrued and unpaid interest upon the occurrence of a change of control.

The 2023 Notes contain customary high yield covenants, including covenants limiting debt incurrence and restricted payments, subject to certain baskets and exceptions. The Company was in compliance with all financial covenants as of June 30, 2018.

Asset-Based Loan Facility Amendment

On April 22, 2016, the Company entered into an amended and restated credit agreement which provides up to a \$400 million principal amount senior secured asset-based revolving credit facility, with up to an additional \$200 million principal amount available with the consent of the Lenders if the Company exercises the accordion feature set forth therein (collectively, the "Credit Facility"). The Credit Facility matures on April 22, 2021. The Company may borrow, repay and reborrow amounts under the Credit Facility until its maturity date, at which time all amounts outstanding under the Credit Facility must be repaid in full. As of June 30, 2018, there were no borrowings outstanding and no letters of credit outstanding under the Credit Facility. There were other letters of credit of \$3.3 million outstanding as of June 30, 2018.

The Credit Facility is subject to a borrowing base, calculated using a formula based upon eligible receivables and inventory, minus certain reserves and subject to restrictions. As of June 30, 2018, the borrowing base and remaining borrowing availability was \$400.0 million. Borrowings under the Credit Facility bear interest at an index based on LIBOR or, at the option of the Company, the Base Rate (defined as the highest of (a) the SunTrust prime rate, (b) the Federal Funds Rate plus 0.5% and (c) one-month LIBOR plus 1.00%), plus, in either case, an applicable margin based on the Company's consolidated senior leverage ratio. Such applicable margin for LIBOR-based borrowings fluctuates between 1.25% - 1.50%, and was 1.25% as of June 30, 2018, and such applicable margin for Base Rate borrowings fluctuates

between 0.25%-0.5%, and was 0.25% as of June 30, 2018. As of June 30, 2018, the applicable interest rate related to Base Rate borrowings was 5.3%, and the applicable interest rate related to LIBOR-based borrowings was 3.3%.

The Company incurred approximately \$1.2 million of debt issuance costs in conjunction with this transaction, which included underwriter fees, legal and accounting expenses. The debt issuance costs are being amortized over the term of the Credit Facility.

The Credit Facility contains customary covenants, including financial covenants which require the Company to maintain a minimum fixed charge coverage ratio of 1.00:1.00 upon reaching certain borrowing levels. The Credit Facility is secured by substantially all assets of the Company. The Company was in compliance with all financial covenants under the Credit Facility during the quarter ended June 30, 2018.

9. Stock-Based Compensation

The Company recognized share-based compensation expense of \$8.6 million and \$8.2 million for the nine months ended June 30, 2018 and June 24, 2017, respectively, as a component of selling, general and administrative expenses. The tax benefit associated with share-based compensation expense for the nine months ended June 30, 2018 and June 24, 2017 was \$2.4 million and \$3.0 million, respectively.

10. Earnings Per Share

The following is a reconciliation of the numerators and denominators of the basic and diluted per share computations for income from continuing operations.

	Three Months Ended June 30, 2018			Nine Months Ended June 30, 2018		
	Income	Shares	Per Share	Income	Shares	Per Share
Basic EPS:						
Net income available to common shareholders	\$ 41,545	51,134	\$ 0.81	\$ 113,026	50,938	\$ 2.22
Effect of dilutive securities:						
Options to purchase common stock		932	(0.01)		1,058	(0.05)
Restricted shares		509	(0.01)		674	(0.02)
Diluted EPS:						
Net income available to common shareholders	\$ 41,545	52,575	\$ 0.79	\$ 113,026	52,670	\$ 2.15

	Three Months Ended June 24, 2017			Nine Months Ended June 24, 2017		
	Income	Shares	Per Share	Income	Shares	Per Share
Basic EPS:						
Net income available to common shareholders	\$ 32,248	50,507	\$ 0.64	\$ 74,569	50,084	\$ 1.49
Effect of dilutive securities:						
Options to purchase common stock		810	(0.01)		1,080	(0.03)
Restricted shares		508	(0.01)		605	(0.02)
Diluted EPS:						
Net income available to common shareholders	\$ 32,248	51,825	\$ 0.62	\$ 74,569	51,769	\$ 1.44

Options to purchase 2.4 million shares of common stock at prices ranging from \$6.43 to \$38.10 per share were outstanding at June 30, 2018, and options to purchase 2.7 million shares of common stock at prices ranging from \$6.43 to \$31.76 per share were outstanding at June 24, 2017.

For each of the three month periods ended June 30, 2018 and June 24, 2017, options to purchase 0.6 million shares of common stock were outstanding but were not included in the computation of diluted earnings per share, because the option exercise prices were greater than the average market price of the common shares and, therefore, the effect would be anti-dilutive.

For the nine months ended June 30, 2018 and June 24, 2017, options to purchase 0.6 million shares of common stock were outstanding but were not included in the computation of diluted earnings per share, because the option exercise prices were greater than the average market price of the common shares and, therefore, the effect would be anti-dilutive.

11. Segment Information

Management has determined that the Company has two operating segments, which are also reportable segments based on the level at which the Chief Operating Decision Maker reviews the results of operations to make decisions regarding performance assessment and resource allocation. These operating segments are Pet segment and Garden segment and are presented in the table below (in thousands).

13. Contingencies

The Company may from time to time become involved in legal proceedings in the ordinary course of business. Currently, the Company is not a party to any legal proceedings that management believes would have a material effect on the Company's financial position or results of operations with the exception of the proceeding below.

In 2012, Nite Glow Industries, Inc and its owner, Marni Markell, ("Nite Glow") filed suit in the United States District Court for New Jersey against the Company alleging that the applicator developed and used by the Company for certain of its branded topical flea and tick products infringes a patent held by Nite Glow and asserted related claims for breach of contract and misappropriation of confidential information based on the terms of a Non-Disclosure Agreement. On June 27, 2018, a jury returned a verdict in favor of Nite Glow on each of the three claims and awarded damages of approximately \$12.6 million. The case is currently in the post-trial motion phase of proceedings and is expected to proceed to appeal once all such motions have been resolved. Unless the verdicts are over-turned in the post-trial proceedings, the Company intends to vigorously pursue its rights on appeal and believes that it will prevail on the merits. While the Company believes that the ultimate resolution of this matter will not have a material impact on the Company's consolidated financial

statements, the outcome of litigation is inherently uncertain and the final resolution of this matter may result in expense to the Company in excess of management's expectations.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Our Company

Central Garden & Pet Company ("Central") is a leading innovator, producer and distributor of branded and private label products for the lawn & garden and pet supplies markets in the United States. The total pet food, treats and supplies industry in 2016 was estimated by Packaged Facts and the pet industry to have been approximately \$55.9 billion in annual retail sales. We estimate the annual retail sales of the pet supplies, live animal, and consumables and natural pet food markets in the categories in which we participate to be approximately \$28.0 billion. The total lawn and garden consumables and decorative products industry in the United States is estimated to be approximately \$27.6 billion in annual retail sales, including fertilizer, pesticides, growing media, seeds, mulch, other consumables and decorative products. We estimate the annual retail sales of the lawn and garden consumables and decorative products markets in the categories in which we participate to be approximately \$18.9 billion.

Our pet supplies products include products for dogs and cats, including edible bones, premium healthy edible and non-edible chews, super premium dog and cat food and treats, toys, pet carriers, grooming supplies and other accessories; products for birds, small animals and specialty pets, including food, cages and habitats, toys, chews and related accessories; animal and household health and insect control products; live fish and products for fish, reptiles and other aquarium-based pets, including aquariums, furniture and lighting fixtures, pumps, filters, water conditioners, food and supplements, and information and knowledge resources; and products for horses and livestock. These products are sold under the brands including Adams™, Aqueon®, Avoderm®, Bio Spot Active Care™, Cadet®, Farnam®, Four Paws®, Kaytee®, K&H Pet Products®, Nylabone®, Pinnacle®, TFH™, Zilla® as well as a number of other brands including Altosid®, Comfort Zone®, Coralife®, Interpet®, Kent Marine®, Pet Select®, Super Pet®, and Zodiac®.

Our lawn and garden supplies products include proprietary and non-proprietary grass seed; wild bird feed, bird feeders, bird houses and other birding accessories; weed, grass, and other herbicides, insecticide and pesticide products; fertilizers; live plants and decorative outdoor lifestyle products including pottery, trellises and other wood products. These products are sold under the brands AMDRO®, Ironite®, Pennington®, and Sevin®, as well as a number of other brand names including Lilly Miller®, Over-N-Out®, Smart Seed® and The Rebels®.

In fiscal 2017, our consolidated net sales were \$2,054 million, of which our Pet segment, or Pet, accounted for approximately \$1,246 million and our Garden segment, or Garden, accounted for approximately \$808 million. In fiscal 2017, our operating income was \$156 million consisting of income from our Pet segment of \$132 million, income from our Garden segment of \$87 million less corporate expenses of \$63 million.

We were incorporated in Delaware in May 1992 as the successor to a California corporation that was formed in 1955. Our executive offices are located at 1340 Treat Boulevard, Suite 600, Walnut Creek, California 94597, and our telephone number is (925) 948-4000. Our website is www.central.com. The information on our website is not incorporated by reference in this annual report.

Recent Developments

Fiscal 2018 Third Quarter Financial Performance:

- Net sales increased \$83.3 million, or 14.5%, from the prior year quarter to \$657.9 million. Pet segment sales increased \$41.3 million, and Garden segment sales increased \$42.0 million.
- Organic net sales decreased 0.1%. Organic net sales increased 6.6% in our Pet segment and declined 8.2% in our Garden segment.
- Gross profit increased \$18.8 million, and gross margin declined 120 basis points to 30.7%.
- Selling, general & administrative expense increased \$15.9 million to \$141.2 million.
- Operating income increased \$2.9 million, or 5.0%, from the prior year quarter, to \$60.8 million in the third quarter of fiscal 2018.
- Our net income in the third quarter of fiscal 2018 was \$41.5 million, or \$0.79 per diluted share, compared to \$32.2 million, or \$0.62 per diluted share, in the third quarter of fiscal 2017.

General Pet Supply

In April 2018, we purchased the business assets of General Pet Supply, a leading Midwestern U.S. supplier of pet food and supplies for approximately \$25 million. The acquisition is expected to broaden our national pet supplies distribution footprint, expand our pet food distribution business and provide us with access to the veterinary channel.

Bell Nursery

In March 2018, we purchased Bell Nursery, a leading grower and distributor of live flowers and plants in the mid-Atlantic region of the United States for approximately \$61 million and contingent consideration up to \$10 million. The acquisition is expected to complement our existing garden portfolio.

Use of Non-GAAP Financial Measures

We report our financial results in accordance with U.S. generally accepted accounting principles (GAAP). However, to supplement the financial results prepared in accordance with GAAP, we use non-GAAP financial measures including non-GAAP operating income on a consolidated and segment basis and non-GAAP net income and diluted net income per share. Management believes these non-GAAP financial measures that exclude the impact of specific items (described below) may be useful to investors in their assessment of our ongoing operating performance and provide additional meaningful comparisons between current results and results in prior operating periods.

The reconciliations of these non-GAAP measures to the most directly comparable financial measures calculated and presented in accordance with GAAP are shown in the tables below. We believe that the non-GAAP financial measures provide useful information to investors and other users of our financial statements, by allowing for greater transparency in the review of our financial and operating performance. Management also uses these non-GAAP financial measures in making financial, operating and planning decisions and in evaluating our performance, and we believe these measures similarly may be useful to investors in evaluating our financial and operating performance and the trends in our business from management's point of view. While our management believes that non-GAAP measurements are useful supplemental information, such adjusted results are not intended to replace our GAAP financial results and should be read in conjunction with those GAAP results.

Non-GAAP financial measures reflect adjustments based on the following items:

- The U.S. government enacted comprehensive tax legislation commonly referred to as the Tax Cuts and Job Act (the "Tax Reform Act") in December 2017. We have excluded the transitional impact of the Tax Reform Act as the remeasurement of our deferred tax assets and liabilities does not reflect the ongoing impact of the lower U.S. statutory rate on our current year earnings.
- Gains or losses on disposals of significant plant assets: we have excluded the impact of gains or losses on the disposal of facilities as these represent infrequent transactions that impact comparability between operating periods. We believe the adjustment of these gains or losses supplements the GAAP information with a measure that may be used to help assess the sustainability of our continuing operating performance.
- Tax impact: the adjustment represents the impact of the tax effect of the pre-tax non-GAAP adjustments excluded from non-GAAP net income. The tax impact of the non-GAAP adjustments is calculated based on the consolidated effective tax rate on a GAAP basis, applied to the non-GAAP adjustments, unless the underlying item has a materially different tax treatment.
- We have also provided organic net sales, a non-GAAP measure that excludes the impact of businesses purchased or exited in the prior 12 months, because we believe it permits investors to better understand the performance of our historical business without the impact of recent acquisitions or dispositions.

From time to time in the future, there may be other items that we may exclude if we believe that doing so is consistent with the goal of providing useful information to investors and management.

The non-GAAP adjustments reflect the following:

- (1) Transitional impact of U.S. Tax Reform: As a result of the Tax Reform Act, during the first quarter of fiscal 2018, the Company recorded a provisional tax benefit of \$16.3 million due to the remeasurement of its deferred tax assets and liabilities. We have excluded only this transitional impact and have not included in the adjustment the ongoing impact of the lower U.S. statutory rate on our current year earnings.
- (2) During the first quarter of fiscal 2017, we recorded a \$2.0 million gain in our Garden segment from the sale of a distribution facility resulting from rationalizing our facilities to reduce excess capacity. This adjustment was recorded as part of selling, general and administrative costs in the condensed consolidated statements of operations.

Organic Net Sales Reconciliation

We have provided organic net sales, a non-GAAP measure that excludes the impact of recent acquisitions and dispositions, because we believe it permits investors to better understand the performance of our historical business. We define organic net sales as net sales from our historical business derived by excluding the net sales from businesses acquired or exited in the preceding 12 months. After an acquired business has been part of our consolidated results for 12 months, the change in net sales thereafter is considered part of the increase or decrease in organic net sales.

Results of Operations

**Three Months Ended June 30, 2018
Compared with Three Months Ended June 24, 2017**

Net Sales

Net sales for the three months ended June 30, 2018 increased \$83.3 million, or 14.5%, to \$657.9 million from \$574.6 million for the three months ended June 24, 2017. Organic net sales, which excludes the impact of acquisitions and divestitures in the last 12 months, declined \$0.7 million, or 0.1%, as compared to the fiscal 2017 quarter. Our branded product sales increased \$54.6 million, and sales of other manufacturers' products increased \$28.7 million.

Pet net sales increased \$41.3 million, or 13.2%, to \$354.7 million for the three months ended June 30, 2018 from \$313.4 million for the three months ended June 24, 2017. The increase in net sales was due to both organic sales growth, which increased \$20.7 million, or 6.6%, and sales from our recent acquisitions of \$20.6 million, primarily from our fiscal 2018 acquisition of a pet distribution business. Organic net sales increased due primarily to volume-based sales increases in our dog & cat category and our pet distribution business. Pet branded product sales increased \$13.4 million, and sales of other manufacturers' products increased \$27.9 million.

Garden net sales increased \$42.0 million, or 16.1%, to \$303.2 million for the three months ended June 30, 2018 from \$261.2 million for the three months ended June 24, 2017. The increase in net sales was due to sales of \$63.4 million from our fiscal 2018 acquisition of Bell Nursery, a grower and distributor of live flowers and plants. A substantial amount of Bell Nursery's revenues are recognized in our third fiscal quarter. Organic net sales declined \$21.4 million, or 8.2%, due principally to unfavorable weather that impacted the garden season and led to lower consumer demand and a shift in the timing of the quarter end for our third quarter, as compared to the prior year, which benefited our second quarter and negatively impacted our third quarter. Our grass seed and fertilizer businesses together accounted for most of the decline. Garden branded sales increased \$41.2 million, due to our fiscal 2018 acquisition, and sales of other manufacturers' products increased \$0.8 million.

Gross Profit

Gross profit for the three months ended June 30, 2018 increased \$18.8 million, or 10.3%, to \$202.1 million from \$183.3 million for the three months ended June 24, 2017. Gross margin declined 120 basis points to 30.7% for the three months ended June 30, 2018 from 31.9% for the three months ended June 24, 2017. The increase in gross profit was due to the increase in net sales partially offset by a lower gross margin in both our Pet and Garden segments.

In our Garden segment, lower organic sales volumes, due to the unfavorable weather during the garden season, impacted our production efficiency. In our Pet segment, an unfavorable product mix impacted the gross margin as more of the sales increase was in lower margin businesses, such as our pet distribution business and the impact from our recent acquisition of General Pet Supply. Additionally, the gross margin in both operating segments was negatively impacted by higher raw material, freight and labor costs.

Selling, General and Administrative Expenses

Selling, general and administrative expenses increased \$15.9 million, or 12.7%, to \$141.2 million for the three months ended June 30, 2018 from \$125.3 million for the three months ended June 24, 2017. Selling, general and administrative expenses increased in both operating segments, due primarily to businesses acquired in the last 12 months, and higher administrative expenses at Corporate in the current year quarter. As a percentage of net sales, selling, general and administrative expenses declined 30 basis points to 21.5% for the three months ended June 30, 2018, due primarily to decreased expenses as a percentage of net sales in our Pet segment.

Selling and delivery expense increased \$7.2 million, or 10.5%, to \$75.3 million for the three months ended June 30, 2018 from \$68.1 million for the three months ended June 24, 2017. Selling and delivery expense increased in both operating segments due primarily to our two recent acquisitions, although their increased expense was at a lower rate of percentage of net sales than our organic businesses. Additionally, delivery expense increased in support of increased sales and due to higher transportation costs.

Warehouse and administrative expense increased \$8.7 million, or 15.3%, to \$65.9 million for the three months ended June 30, 2018 from \$57.2 million for the three months ended June 24, 2017. Most of the increase resulted from businesses acquired in the last 12 months in both operating segments. Additionally, Pet had increased expenses related to warehouse and facility transitions to support increased sales. Corporate expenses increased due primarily to increased legal and litigation costs and increased medical insurance expense. Corporate expenses are included within administrative expense and relate to the costs of unallocated executive, administrative, finance, legal, human resources, and information technology functions.

Operating Income

Operating income increased \$2.9 million to \$60.8 million for the three months ended June 30, 2018 from \$57.9 million for the three months ended June 24, 2017. The favorable impact of increased sales of \$83.3 million was partially offset by a 120 basis point decrease in gross margin and a \$15.9 million increase in selling, general and administrative costs. Operating margin decreased to 9.2% for the three months ended June 30, 2018 from 10.1% for the three months ended June 24, 2017 due to the 120 basis point decline in gross margin partially offset by a 30 basis point decrease in selling, general and administrative expense as a percentage of net sales in the current year quarter.

Pet operating income increased \$3.1 million, or 8.7%, to \$39.2 million for the three months ended June 30, 2018 from \$36.1 million for the three months ended June 24, 2017. Increased sales of \$41.3 million and a flat gross margin were only partially offset by increased selling, general and administrative expense. Pet operating margin decreased to 11.1% for the three months ended June 30, 2018 from 11.5% for the three months ended June 24, 2017 due to the decline in gross margin and the negative impact of our acquisition of General Pet Supply which, as a distribution business, has lower operating margins than our manufacturing businesses.

Garden operating income increased \$2.6 million to \$40.9 million for the three months ended June 30, 2018 from \$38.3 million for the three months ended June 24, 2017 as increased sales were only partially offset by a lower gross margin and increased selling, general and administrative expenses. The increase in Garden operating income resulted from our fiscal 2018 acquisition, which was partially offset by the decrease in organic operating income from our Garden segment. Bell Nursery, acquired in March 2018, is in the live garden goods business, and is subject to extreme seasonality. Although the acquisition significantly contributed to our fiscal 2018 third quarter earnings, its other three quarters typically incur losses or don't generate income. Garden operating margin decreased to 13.5% for the three months ended June 30, 2018 from 14.7% for the three months ended June 24, 2017 due to a lower gross margin and increased selling, general and administrative expenses as a percentage of net sales.

Corporate operating expense increased \$2.8 million to \$19.3 million in the current year quarter from \$16.5 million in the fiscal 2017 quarter due primarily to higher third party service provider expenses associated with increased legal and litigation costs and also due to increased medical insurance expenses.

Net Interest Expense

Net interest expense for the three months ended June 30, 2018 increased \$2.8 million, or 38.7%, to \$10.0 million from \$7.2 million for the three months ended June 24, 2017. The increase in interest expense was due to higher average debt outstanding during the current year quarter partially offset by increased interest income from earnings on excess cash due to our higher cash balance during the quarter. Both the increase in average debt outstanding and higher cash balance during the current year quarter were due to our issuance in December 2017 of \$300 million aggregate principal amount 5.125% senior notes due February 2028.

Debt outstanding on June 30, 2018 was \$691.9 million compared to \$435.4 million at June 24, 2017.

Other Income (Expense)

Other income (expense) is comprised of income or losses from investments accounted for under the equity method of accounting and foreign currency exchange gains and losses. Other income (expense) increased \$0.5 million to \$2.1 million of income for the quarter ended June 30, 2018, from income of \$1.6 million for the quarter ended June 24, 2017. The increase was due primarily to increased earnings from one of our investments that is seasonal in nature, partially offset by increased losses from a separate investment in a start-up business.

Income Taxes

Our effective income tax rate was 21.5% for the quarter ended June 30, 2018 compared to 37.2% for the quarter ended June 24, 2017. The lower effective income tax rate in the current year quarter was due primarily to the impact of the December 2017 enactment of the Tax Reform Act and our adoption of ASU 2016-09, Stock Compensation at the beginning of our fiscal 2018. The Tax Reform Act, among numerous provisions, included the reduction of the corporate federal income tax rate from 35% to 21%, effective January 1, 2018. Also, we now record excess tax benefits resulting from stock compensation in the provision for income taxes due to the adoption of ASU 2016-9. For the current year quarter, this resulted in a further reduction of approximately \$3 million of income tax expense. Although we believe unlikely during fiscal 2018, it is possible for the impact of ASU 2016-09 to have a negative impact on our tax rate in the future.

We expect our effective tax rate to be approximately 27% in fiscal 2018, excluding the impact of discrete items which include the revaluation of our deferred tax accounts and the adoption of ASU 2016-09, stock compensation.

Net Income and Earnings Per Share

Our net income in the third quarter of fiscal 2018 was \$41.5 million, or \$0.79 per diluted share, compared to \$32.2 million, or \$0.62 per diluted share, in the third quarter of fiscal 2017.

Nine Months Ended June 30, 2018 Compared with Nine Months Ended June 24, 2017

Net Sales

Net sales for the nine months ended June 30, 2018 increased \$149.0 million, or 9.5%, to \$1,713.0 million from \$1,564.0 million for the nine months ended June 24, 2017. Organic net sales increased \$38.8 million, or 2.5%, as compared to the prior year nine month period. Our branded product sales increased \$112.0 million to \$1,364.3 million, and sales of other manufacturers' products increased \$36.8 million to \$348.8 million for the nine months ended June 30, 2018 as compared to the prior year nine month period.

Pet net sales increased \$85.6 million, or 9.3%, to \$1,001.5 million for the nine months ended June 30, 2018 from \$915.9 million for the nine months ended June 24, 2017. Pet organic net sales increased \$43.0 million, or 4.7%, resulting primarily from volume-based increases in our dog & cat category due to sales growth in both retail stores and e-commerce channels, and our Pet distribution business, due primarily to increased sales in the grocery store channel. Approximately \$42.6 million of the increase in Pet net sales resulted from the impact of acquisitions and divestitures completed in the last 12 months. Until an acquired business has been part of our consolidated results for 12 months, its net sales are considered sales from acquisitions and divestitures. Three different acquisitions contributed to net sales from acquisitions for the nine months ended June 30, 2018. Pet branded product sales increased \$46.7 million. Sales of other manufacturer's products increased \$38.9 million due primarily to increased sales in the grocery store channel. Both increases were due to organic growth and from recent acquisitions.

Garden net sales increased \$63.4 million, or 9.8%, to \$711.5 million for the nine months ended June 30, 2018 from \$648.1 million for the nine months ended June 24, 2017. Garden sales from acquisitions were \$67.6 million. Garden organic sales decreased \$4.2 million due primarily to our lower fiscal 2018 third quarter sales, which were impacted by the unfavorable weather experienced at the beginning of the garden season. The unfavorable weather led to a broad-based decline in the third quarter of fiscal 2018 across our Garden business, especially in our grass seed business. The broad-based decline was partially offset by increased sales in our controls & fertilizer unit due to its strong sales growth in the second quarter of fiscal 2018. Garden branded product sales increased \$65.3 million due primarily to our acquisition of Bell Nursery, and sales of other manufacturers' products decreased \$1.9 million.

Gross Profit

Gross profit for the nine months ended June 30, 2018 increased \$40.9 million, or 8.4%, to \$528.4 million from \$487.5 million for the nine months ended June 24, 2017. Both operating segments contributed to the increased gross profit. Gross margin decreased 40 basis

points to 30.8% for the nine months ended June 30, 2018 from 31.2% for the nine months ended June 24, 2017. A gross margin decrease in Pet was partially offset by a minor gross margin increase in Garden.

Pet segment gross profit increased due to the higher net sales partially offset by a reduced gross margin. The lower gross margin in Pet was due primarily to an unfavorable sales mix as increased sales were in lower margin product categories and, to a lesser extent, increased input and freight costs.

Garden segment gross profit increased due to higher net sales and a minor improvement in gross margin. The higher gross margin in Garden was due to a favorable mix as increased sales were in higher margin product categories and to cost saving initiatives and product efficiency gains resulting from bringing more production in-house. Most of the gross margin improvement experienced through the first six months of our fiscal year was offset by the lower margin in the three months ended June 30, 2018, which was impacted by lower volumes.

Selling, General and Administrative Expenses

Selling, general and administrative expenses increased \$33.5 million, or 9.7%, to \$379.2 million for the nine months ended June 30, 2018 from \$345.7 million for the nine months ended June 24, 2017. As a percentage of net sales, selling, general and administrative expenses were flat at 22.1% for the nine months ended June 30, 2018, and June 24, 2017. Excluding a \$2.0 million gain from the sale of a distribution facility, which is included within warehouse and administrative expenses, the increase in selling, general and administrative expense would have been \$31.4 million and as a percentage of net sales, selling, general and administrative expense would have declined 10 basis points from 22.2%. Both operating segments and Corporate incurred increased selling, general and administrative expenses in the current year nine month period as compared to the prior year nine month period.

Selling and delivery expense increased \$16.1 million, or 8.8%, to \$198.8 million for the nine months ended June 30, 2018 from \$182.7 million for the nine months ended June 24, 2017. The increase was due primarily to recent acquisitions and higher transportation costs in both segments. Additionally, the Pet segment incurred higher delivery expense to support the organic sales increase.

Warehouse and administrative expense increased \$17.4 million, or 10.7%, to \$180.4 million for the nine months ended June 30, 2018 from \$163.0 million for the nine months ended June 24, 2017. Excluding a \$2.0 million gain from the sale of a distribution facility in the prior year, warehouse and administrative expense increased \$15.3 million. Increased expense in both operating segments was due primarily to recent acquisitions. Corporate expense increased approximately \$3.6 million primarily due to increased medical insurance expenses. Corporate expenses are included within administrative expense and relate to the costs of unallocated executive, administrative, finance, legal, human resource, and information technology functions.

Operating Income

Operating income increased \$7.4 million to \$149.1 million for the nine months ended June 30, 2018 from \$141.7 million for the nine months ended June 24, 2017. Our operating margin declined to 8.7% for the nine months ended June 30, 2018 from 9.1% for the nine months ended June 24, 2017. Increased sales of \$149.0 million were partially offset by a 40 basis point decline in gross margin and a \$33.5 million increase in selling, general and administrative expense, which was flat as a percent of net sales compared to the prior year period. This led to our improved operating income and decline in operating margin. Operating income, adjusted for the gain on the distribution facility in the prior year, increased \$9.4 million and operating margin decreased from 8.9% in the prior nine month period to 8.7% in the current nine month period.

Pet operating income increased \$4.1 million, or 3.9%, to \$108.2 million for the nine months ended June 30, 2018 from \$104.1 million for the nine months ended June 24, 2017. The increase was due primarily to increased sales partially offset by a lower gross margin and increased selling, general and administrative expenses. Our Pet operating margin declined to 10.8% for the nine months ended June 30, 2018 from 11.4% for the nine months ended June 24, 2017 due to a lower gross margin and increased selling general and administrative expense as a percent of net sales. These changes were due primarily to increased sales in pet distribution, including our recent acquisition of General Pet Supply, which generally has lower operating margins, and higher raw material and transportation costs.

Garden operating income increased \$6.9 million, or 8.0%, to \$94.0 million for the nine months ended June 30, 2018 from \$87.1 million in the nine months ended June 24, 2017, due to the net sales from our recent acquisition of Bell Nursery and a minor increase in gross margin. Garden operating margin declined 20 basis points to 13.2% for the nine months ended June 30, 2018, due to a slightly improved gross margin partially offset by an increase in selling, general and administrative expenses as a percentage of net sales.

Bell Nursery, acquired in March 2018, is in the live garden goods business, and is subject to extreme seasonality. Although the acquisition significantly contributed to our fiscal 2018 third quarter earnings, its other three quarters typically incur losses or don't generate income. Our nine month fiscal 2018 year-to-date results do not include two quarters of losses that we expect the live garden business to incur in fiscal 2019.

Corporate operating expenses increased \$3.6 million to \$53.1 million in the current nine month period from \$49.5 million in the comparable fiscal 2017 period due primarily to increased medical insurance expense.

Net Interest Expense

Net interest expense for the nine months ended June 30, 2018 increased \$6.2 million, or 29.9%, to \$27.1 million from \$20.9 million for the nine months ended June 24, 2017. The increase in interest expense was due to higher average debt outstanding during the current fiscal year. In December 2017, we issued \$300 million aggregate principal amount of 5.125% senior notes due February 2028.

Debt outstanding on June 30, 2018 was \$691.9 million compared to \$435.4 million as of June 24, 2017. Our average borrowing rate for the current nine month period decreased to 5.8% from 5.9% for the prior year nine month period.

Other Income (Expense)

Other income (expense) increased \$0.8 million to income of \$0.5 million for the nine months ended June 30, 2018 from an expense of \$0.3 million for the nine months ended June 24, 2017. The increase was due to our investment in a seasonal business, due both to its increased earnings in the fiscal 2018 third quarter as compared to the prior year quarter and to the inclusion of only one quarter of earnings in fiscal 2017. The increased earnings from this investment were partially offset by increased expense from a separate investment in a start-up business. Other expense is comprised of income or losses from investments accounted for under the equity method of accounting and foreign currency exchange gains and losses.

Income Taxes

Our effective income tax rate was 7.2% for the nine months ended June 30, 2018, and 37.0% for the nine months ended June 24, 2017.

Three items impacted our income tax in the nine month period ended June 30, 2018:

- The revaluation of net long-term deferred tax liabilities as a result of the Tax Reform Act
- A lower expected corporate federal income tax rate for three of our four quarters of our 2018 fiscal year
- The adoption of ASU 2016-09, *Stock Compensation*

On December 22, 2017, the Securities and Exchange Commission issued Staff Accounting Bulletin No. 118 (“SAB 118”). This guidance allows registrants a “measurement period,” not to exceed one year from the date of enactment, to complete their accounting for the tax effects of the Tax Reform Act. Registrants should reflect adjustments over subsequent periods as they are able to refine their estimates and complete their accounting for the tax effects of the Tax Reform Act. We have made reasonable estimates and recorded provisional amounts within the meaning of SAB 118. In subsequent periods, but within the measurement period, we will analyze that guidance and other necessary information to refine our estimates and complete our accounting for the tax effects of the Tax Reform Act.

Additionally, we adopted ASU 2016-09 during the quarter ended December 30, 2017. As a result, we now record excess tax benefits resulting from stock compensation in the provision for income taxes. For the nine month period ended June 30, 2018, this resulted in a further reduction of approximately seven million dollars of income tax expense.

Our federal corporate tax rate for fiscal 2018 has declined to approximately 24.5% from 35% in fiscal 2017. The effective tax rate for the nine months ended June 30, 2018 is a blended rate that reflects the estimated benefit of three quarters of federal tax rate reductions for fiscal 2018. We expect our effective tax rate to be approximately 27% in fiscal 2018, excluding the impact of discrete items which includes the revaluation of our deferred tax accounts and the adoption of ASU 2016-09, stock compensation.

The results for the nine month period ended June 30, 2018 include the impact of the December 2017 enactment of the Tax Reform Act which, among numerous provisions, included the reduction of the corporate federal income tax rate from 35% to 21%, effective January 1, 2018. As a result, we recorded a provisional tax benefit of \$16.3 million in the quarter ended December 30, 2017, due to the remeasurement of our net long-term deferred tax assets and liabilities.

Net Income and Earnings Per Share

Our net income for the nine month period ended June 30, 2018 was \$113.0 million, or \$2.15 per diluted share, compared to \$74.6 million, or \$1.44 per diluted share, for the nine month period ended June 24, 2017.

Adjusting for the provisional impact of the Tax Reform Act on our deferred tax accounts in the first quarter of fiscal 2018 and for the gain from the sale of a distribution facility in the first quarter of fiscal 2017, our net income for the nine months ended June 30, 2018 was \$96.7 million, or \$1.84 per diluted share, compared to \$73.3 million or \$1.42 per share for the nine months ended June 24, 2017.

We have adjusted for the provisional transitional impact on our deferred tax accounts of the Tax Reform Act. The adjustment does not include the ongoing impacts of the lower U.S. statutory rate on current year earnings.

The final impact of the Tax Reform Act may differ due to, among other things, changes in interpretations, assumptions made by us, the issuance of additional guidance, and actions we may take as a result of the Tax Reform Act.

Inflation

Our revenues and margins are dependent on various economic factors, including rates of inflation, energy costs, consumer attitudes toward discretionary spending, currency fluctuations, and other macro-economic factors which may impact levels of consumer spending. In certain fiscal periods, we have been adversely impacted by rising input costs related to inflation, particularly relating to grain and seed prices, fuel prices and the ingredients used in our garden controls and fertilizer. Rising costs in those periods have made it difficult for us to increase prices to our retail customers at a pace sufficient to enable us to maintain margins.

During fiscal years 2015 through 2017, commodity costs generally declined, but in past years we have been impacted by volatility in a number of commodities, including grass seed and wild bird feed grains. We continue to monitor commodity prices in order to be in a position to take action to mitigate the impact of increasing raw material costs.

Weather and Seasonality

Our sales of lawn and garden products are influenced by weather and climate conditions in the different markets we serve. Additionally, our Garden segment's business is highly seasonal. In fiscal 2017, approximately 66% of our Garden segment's net sales and 56% of our total net sales occurred during our second and third fiscal quarters. Substantially all of the Garden segment's operating income is typically generated in this period.

Liquidity and Capital Resources

We have financed our growth through a combination of internally generated funds, bank borrowings, supplier credit, and sales of equity and debt securities to the public.

Our business is seasonal and our working capital requirements and capital resources track closely to this seasonal pattern. Generally, during the first fiscal quarter, accounts receivable reach their lowest level while inventory, accounts payable and short-term borrowings begin to increase. During the second fiscal quarter, receivables, accounts payable and short-term borrowings increase, reflecting the build-up of inventory and related payables in anticipation of the peak lawn and garden selling season. During the third fiscal quarter, inventory levels remain relatively constant while accounts receivable peak and short-term borrowings start to decline as cash collections are received during the peak selling season. During the fourth fiscal quarter, inventory levels are at their lowest, and accounts receivable and payables are substantially reduced through conversion of receivables to cash.

We service two broad markets: pet supplies and lawn and garden supplies. Our pet supplies businesses primarily involve products that have a year round selling cycle with a slight degree of seasonality. As a result, it is not necessary to maintain large quantities of inventory to meet peak demands. Our lawn and garden businesses are highly seasonal with approximately 66% of our Garden segment's net sales occurring during the second and third fiscal quarters. This seasonality requires the shipment of large quantities of product well ahead of the peak consumer buying periods. To encourage retailers and distributors to stock large quantities of inventory, industry practice has been for manufacturers to give extended credit terms and/or promotional discounts.

Operating Activities

Net cash provided by operating activities decreased by \$24.9 million, from \$42.6 million for the nine months ended June 24, 2017, to \$17.8 million for the nine months ended June 30, 2018. The decrease in cash provided was due primarily to changes in our working capital accounts for the period ended June 30, 2018, as compared to the prior year period, as the increase in net income for the nine months ended June 30, 2018 was partially offset by the non-cash effects of the impact of the Tax Reform Act as described in Note 1.

Investing Activities

Net cash used in investing activities decreased \$24.1 million, from \$149.9 million for the nine months ended June 24, 2017 to \$125.8 million during the nine months ended June 30, 2018. The decrease in cash used in investing activities was due primarily to decreased acquisition and investment activity in the current year compared to the prior year as well as a \$10.1 million decrease in capital expenditures during the current year. During the third quarter of fiscal 2018, we acquired General Pet Supply for approximately \$24.5 million and during the second quarter of fiscal 2018, we acquired Bell Nurseries for approximately \$61 million. During the first fiscal quarter of 2017, we acquired Segrest Inc., a wholesaler of aquarium fish, for total aggregate consideration of \$60 million and during the third fiscal quarter of 2017, we acquired K&H Manufacturing for approximately \$48 million. The acquisition activity in 2017 was partially offset by proceeds from the sale of a small veterinary division and a distribution facility in our Garden segment during the first fiscal quarter of 2017.

Financing Activities

Net cash provided by financing activities increased \$251.2 million, from \$28.9 million for the nine months ended June 24, 2017, to \$280.1 million for the nine months ended June 30, 2018. The increase in cash provided by financing activities was due primarily to our December 2017 issuance of \$300 million aggregate principal amount 5.125% senior notes due February 2028, partially offset by deferred financing costs of approximately \$4.8 million associated with this issuance. There were also \$40.0 million of borrowings outstanding under our revolving credit facility in the prior year period that were not outstanding during the current year period.

We expect that our principal sources of funds will be cash generated from our operations and, if necessary, borrowings under our \$400 million asset backed revolving credit facility. Based on our anticipated cash needs, availability under our asset backed revolving credit facility and the scheduled maturity of our debt, we believe that our sources of liquidity should be adequate to meet our working capital, capital spending and other cash needs for at least the next 12 months. However, we cannot assure you that these sources will continue to provide us with sufficient liquidity and, should we require it, that we will be able to obtain financing on terms satisfactory to us, or at all.

We believe that cash flows from operating activities, funds available under our asset backed loan facility, and arrangements with suppliers will be adequate to fund our presently anticipated working capital and capital expenditure requirements for the foreseeable future. We anticipate that our capital expenditures, which are related primarily to replacements and expansion of and upgrades to plant and equipment and also investment in our continued implementation of a scalable enterprise-wide information technology platform, will be approximately \$40 to \$45 million in fiscal 2018.

As part of our growth strategy, we have acquired a number of companies in the past, and we anticipate that we will continue to evaluate potential acquisition candidates in the future. If one or more potential acquisition opportunities, including those that would be material, become available in the near future, we may require additional external capital. In addition, such acquisitions would subject us to the general risks associated with acquiring companies, particularly if the acquisitions are relatively large.

At June 30, 2018, our total debt outstanding was \$691.9 million, as compared with \$435.4 million at June 24, 2017.

Senior Notes

\$300 Million 5.125% Senior Notes

On December 14, 2017, we issued \$300 million aggregate principal amount of 5.125% senior notes due February 2028. We will use the net proceeds from the offering to finance future acquisitions and for general corporate purposes.

We incurred approximately \$4.8 million of debt issuance costs in conjunction with this transaction, which included underwriter fees and legal, accounting and rating agency expenses. The debt issuance costs are being amortized over the term of the 2028 Notes.

The 2028 Notes require semiannual interest payments on February 1 and August 1, commencing August 1, 2018. The 2028 Notes are unconditionally guaranteed on a senior basis by our existing and future domestic restricted subsidiaries who are borrowers under or guarantors of our senior secured revolving credit facility or who guarantee the 2023 Notes.

We may redeem some or all of the 2028 Notes at any time, at our option, prior to January 1, 2023 at the principal amount plus a "make whole" premium. At any time prior to January 1, 2021, we may also redeem, at our option, up to 35% of the original aggregate principal amount of the notes with the proceeds of certain equity offerings at a redemption price of 105.125% of the principal amount of the notes. We may redeem some or all of the 2028 Notes, at our option, at any time on or after January 1, 2023 for 102.563%, on or after January 1, 2024 for 101.708%, on or after January 1, 2025 for 100.854% and on or after January 1, 2026 for 100.0%, plus accrued and unpaid interest.

The holders of the 2028 Notes have the right to require us to repurchase all or a portion of the 2028 Notes at a purchase price equal to 101% of the principal amount of the notes repurchased, plus accrued and unpaid interest upon the occurrence of a change of control.

The 2028 Notes contain customary high yield covenants, including covenants limiting debt incurrence and restricted payments, subject to certain baskets and exceptions. We were in compliance with all financial covenants as of June 30, 2018.

\$400 Million 6.125% Senior Notes

In November 2015, we issued \$400 million aggregate principal amount of 6.125% senior notes due November 2023 (the "2023 Notes"). In December 2015, we used the net proceeds from the offering, together with available cash, to redeem our \$400 million aggregate principal amount of 8.25% senior subordinated notes due March 1, 2018 (the "2018 Notes") at a price of 102.063% of the principal amount and to pay fees and expenses related to the offering.

We incurred approximately \$6.3 million of debt issuance costs in conjunction with these transactions, which included underwriter fees and legal, accounting and rating agency expenses. The debt issuance costs are being amortized over the term of the 2028 Notes.

The 2023 Notes require semiannual interest payments on May 15 and November 15. The 2023 Notes are unconditionally guaranteed on a senior basis by each of our existing and future domestic restricted subsidiaries which are borrowers under or guarantors of our senior secured revolving credit facility. The 2023 Notes are unsecured senior obligations and are subordinated to all of our existing and future secured debt, including our Credit Facility, to the extent of the value of the collateral securing such indebtedness.

We may redeem some or all of the 2023 Notes at any time, at our option, prior to November 15, 2018 at the principal amount plus a "make whole" premium. At any time prior to November 15, 2018, we may also redeem, at our option, up to 35% of the original aggregate principal amount of the notes with the proceeds of certain equity offerings at a redemption price of 106.125% of the principal amount of the notes. We may redeem some or all of the 2023 Notes, at our option, at any time on or after November 15, 2018 for 104.594%, on or after November 15, 2019 for 103.063%, on or after November 15, 2020 for 101.531% and on or after November 15, 2021 for 100%, plus accrued and unpaid interest.

The holders of the 2023 Notes have the right to require us to repurchase all or a portion of the 2023 Notes at a purchase price equal to 101% of the principal amount of the notes repurchased, plus accrued and unpaid interest upon the occurrence of a change of control.

The 2023 Notes contain customary high yield covenants, including covenants limiting debt incurrence and restricted payments, subject to certain baskets and exceptions. We were in compliance with all financial covenants as of June 30, 2018.

Asset-Based Loan Facility Amendment

In April 2016, we entered into an amended and restated credit agreement which provides up to a \$400 million principal amount senior secured asset-based revolving credit facility, with up to an additional \$200 million principal amount available with the consent of the Lenders if we exercise the accordion feature set forth therein (collectively, the "Credit Facility"). The Credit Facility matures on April 22, 2021. We may borrow, repay and reborrow amounts under the Credit Facility until its maturity date, at which time all amounts outstanding under the Credit Facility must be repaid in full. As of June 30, 2018, there were no borrowings outstanding and no letters of credit outstanding under the Credit Facility. There were other letters of credit of \$3.3 million outstanding as of June 30, 2018.

The Credit Facility is subject to a borrowing base, calculated using a formula based upon eligible receivables and inventory, minus certain reserves and subject to restrictions. As of June 30, 2018, the borrowing base and remaining borrowing availability was \$400.0 million. Borrowings under the Credit Facility bear interest at an index based on LIBOR or, at the option of the Company, the Base Rate (defined as the highest of (a) the SunTrust prime rate, (b) the Federal Funds Rate plus 0.5% and (c) one-month LIBOR plus 1.00%), plus, in either case, an applicable margin based on our consolidated senior leverage ratio. Such applicable margin for LIBOR-based borrowings fluctuates between 1.25% - 1.5%, and was 1.25% as of June 30, 2018, and such applicable margin for Base Rate borrowings fluctuates between 0.25% - 0.5%, and was 0.25% as of June 30, 2018. As of June 30, 2018, the applicable interest rate related to Base Rate borrowings was 5.3%, and the applicable interest rate related to LIBOR-based borrowings was 3.3%.

We incurred approximately \$1.2 million of debt issuance costs in conjunction with this transaction, which included underwriter fees, legal and accounting expenses. The debt issuance costs will be amortized over the term of the Credit Facility.

The Credit Facility contains customary covenants, including financial covenants which require us to maintain a minimum fixed charge coverage ratio of 1.00:1.00 upon reaching certain borrowing levels. The Credit Facility is secured by substantially all of our assets. We were in compliance with all financial covenants under the Credit Facility during the period ended June 30, 2018.

Off-Balance Sheet Arrangements

There have been no material changes to the information provided in our Annual Report on Form 10-K for the fiscal year ended September 30, 2017 regarding off-balance sheet arrangements.

Contractual Obligations

Except for the issuance of our 2028 Notes and the contingent consideration related to the Bell Nursery acquisition, there have been no material changes outside the ordinary course of business in our contractual obligations set forth in the Management's Discussion and Analysis of Financial Condition and Results of Operations - Liquidity and Capital Resources in our Annual Report on Form 10-K for the fiscal year ended September 30, 2017.

New Accounting Pronouncements

Refer to Footnote 1 in the notes to the condensed consolidated financial statements for new accounting pronouncements.

Critical Accounting Policies, Estimates and Judgments

There have been no material changes to our critical accounting policies, estimates and assumptions or the judgments affecting the application of those accounting policies since our Annual Report on Form 10-K for the fiscal year ended September 30, 2017.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

There has been no material change in our exposure to market risk from that discussed in our Annual Report on Form 10-K for the fiscal year ended September 30, 2017.

Item 4. Controls and Procedures

(a) *Evaluation of Disclosure Controls and Procedures.* Our Chief Executive Officer and principal financial officer have reviewed, as of the end of the period covered by this report, the "disclosure controls and procedures" (as defined in the Securities Exchange Act of 1934 Rules 13a-15(e) and 15d-15(e)) that ensure that information relating to the Company required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported in a timely and proper manner and that such information is accumulated and communicated to our management, including our Chief Executive Officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosure. Based upon this review, such officers concluded that our disclosure controls and procedures were effective as of June 30, 2018.

(b) *Changes in Internal Control Over Financial Reporting.* Our management, with the participation of our Chief Executive Officer and our principal financial officer have evaluated whether any change in our internal control over financial reporting occurred during the third quarter of fiscal 2018. Based on that evaluation, management concluded that there has been no change in our internal control over financial reporting during the third quarter of fiscal 2018 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

In 2012, Nite Glow Industries, Inc and its owner, Marni Markell, ("Nite Glow") filed suit in the United States District Court for New Jersey against the Company alleging that the applicator developed and used by the Company for certain of its branded topical flea and tick products infringes a patent held by Nite Glow and asserted related claims for breach of contract and misappropriation of confidential information based on the terms of a Non-Disclosure Agreement. On June 27, 2018, a jury returned a verdict in favor of Nite Glow on each of the three claims and awarded damages of approximately \$12.6 million. The case is currently in the post-trial motion phase of proceedings and is expected to proceed to appeal once all such motions have been resolved. Unless the verdicts are over-turned in the post-trial proceedings, the Company intends to vigorously pursue its rights on appeal and believes that it will prevail on the merits. While the Company believes that the ultimate resolution of this matter will not have a material impact on the Company's consolidated financial statements, the outcome of litigation is inherently uncertain and the final resolution of this matter may result in expense to the Company in excess of management's expectations.

From time to time, we are involved in certain legal proceedings in the ordinary course of business. Except as discussed above, we are not currently a party to any other legal proceedings that management believes would have a material effect on our financial position or results of operations.

Item 1A. Risk Factors

There have been no material changes from the risk factors previously disclosed in Item 1A to Part I of our Form 10-K for the fiscal year ended September 30, 2017, except as set forth below.

We have pending litigation which could adversely impact our operating results.

We are a party to litigation alleging that the applicator developed and used by us for certain of our branded topical flea and tick products infringes a patent held by Nite Glow Industries, Inc. and claims for breach of contract and misappropriation of confidential information. On June 27, 2018, a jury returned a verdict in favor of Nite Glow and awarded damages of approximately \$12.6 million. Unless the verdicts are over-turned in post-trial proceedings, we intend to vigorously pursue our rights on appeal. However, the outcome of litigation is inherently uncertain. Regardless of the ultimate outcome, we could incur significant legal expenses pursuing an appeal and could experience the diversion of time by our management. If we are unsuccessful in post-trial proceedings or on appeal, our operating results could be adversely affected.

Potential tariffs or a global trade war could increase the cost of our products, which could adversely impact the competitiveness of our products and our financial results.

Recently, the Trump Administration announced \$34 billion in tariffs on goods imported from China and a potential additional \$200 billion in tariffs on goods imported from China. Approximately 10% of the products that we sell in the United States are manufactured in China. If the Trump Administration follows through on its proposed China tariffs, or if additional tariffs or trade restrictions are implemented by the United States or other countries in connection with a global trade war, the cost of our products manufactured in China, or other countries and imported into the United States or other countries could increase, which in turn could adversely affect the demand for these products and have a material adverse effect on our business and results of operation.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

The following table sets forth the repurchases of any equity securities during the fiscal quarter ended June 30, 2018 and the dollar amount of authorized share repurchases remaining under our stock repurchase program.

Period	Total Number of Shares (or Units) Purchased	Average Price Paid per Share (or Units)	Total Number of Shares (or Units) Purchased as Part of Publicly Announced Plans or Programs	Maximum Number (or Approximate Dollar Value) of Shares (or Units) that May Yet Be Purchased Under the Plans or Programs (1)
April 1, 2018 - May 5, 2018	1,318 ⁽²⁾	\$ 34.30	—	\$ 34,968,000
May 6, 2018 - June 2, 2018	21,945 ⁽²⁾	\$ 37.37	—	\$ 34,968,000
June 3, 2018 - June 30, 2018	— ⁽²⁾	\$ —	—	\$ 34,968,000
Total	23,263	\$ 37.20	—	\$ 34,968,000

- (1) During the third quarter of fiscal 2011, our Board of Directors authorized a \$100 million share repurchase program. The program has no expiration date and expires when the amount authorized has been used or the Board withdraws its authorization. The repurchase of shares may be limited by certain financial covenants in our credit facility and indenture that restrict our ability to repurchase our stock.
- (2) Shares purchased during the period indicated represent withholding of a portion of shares to cover taxes in connection with the vesting of restricted stock.
