## Central Garden & Pet Announces Q2 Fiscal 2022 Results

*Q2 fiscal 2022 net sales increased 2% to \$954 million*

*Q2 fiscal 2022 diluted GAAP EPS of \$1.27*

*Maintains outlook for fiscal 2022 diluted GAAP EPS of \$3.10 or better*

WALNUT CREEK, Calif.--(BUSINESS WIRE)--May 4, 2022--Central Garden & Pet Company (NASDAQ: CENT) (NASDAQ: CENTA) ("Central"), a market leader in the garden and pet industries, today announced financial results for its fiscal 2022 second quarter ended March 26, 2022.

"Central delivered another solid quarter thanks to strong execution by our team in this challenging inflationary environment," said Tim Cofer, CEO of Central Garden & Pet. "Despite the ongoing headwinds, we grew sales and operating income, and importantly, expanded gross margin, and remain on track to deliver our fiscal 2022 financial targets. We continue to make purposeful investments to drive profitable long-term growth."

### **Fiscal 2022 Second Quarter Financial Results**

Net sales increased 2% to \$954 million compared to \$935 million a year ago, driven by recent acquisitions, which contributed \$52 million to the quarter. Organic net sales decreased 3.5% compared to the prior year quarter.

Gross margin was 30.1%, an increase of 100 basis points compared to a year ago, driven primarily by pricing as well as favorable product mix and productivity improvements, partially offset by cost inflation in commodities, freight and labor.

Operating income increased 2% to \$107 million from \$105 million a year ago. Operating margin of 11.2% was in line with the prior year despite continued inflation and heightened investment spending.

Net interest expense was \$15 million compared to \$10 million a year ago primarily due to higher debt outstanding.

---

The Company's net income was \$70 million, a decrease of 4% from \$73 million a year ago. Diluted GAAP earnings per share for the quarter was \$1.27, a decrease of \$0.05 compared to the prior year quarter. Adjusted EBITDA increased 2% to \$131 million from \$129 million a year ago.

The Company's effective tax rate was 23.4% compared to 22.7% in the prior year quarter.

#### **Garden Segment Fiscal 2022 Second Quarter Results**

Net sales for the Garden segment increased 3% to \$457 million driven by contributions from recent acquisitions offsetting a decline in organic sales of 9%. Organic strength in wild bird was more than offset by declines in chemicals & fertilizer, garden distribution, controls and grass seed, driven by unfavorable weather causing a late start to the garden season. On a two-year compound annualized growth rate basis, organic Garden segment sales increased 17% in the second quarter.

Garden segment operating income increased 7% to \$71 million driven by the strong performance of recent acquisitions. Operating margin grew 50 basis points to 15.4%, mainly driven by contributions from recent acquisitions and improved pricing, partially offset by inflationary pressures and heightened investment spending. Garden segment adjusted EBITDA increased 5% to \$78 million from \$75 million in the prior year quarter.

#### **Pet Segment Fiscal 2022 Second Quarter Results**

Net sales for the Pet segment increased 1% to \$498 million, with notable contributions from the Company's dog and cat, outdoor cushions, professional and pet distribution businesses, offset by softness in pet beds.

Pet segment operating income decreased 2% to \$61 million, and operating margin declined 40 basis points to 12.2%. Pet segment adjusted EBITDA decreased 1% to \$70 million from \$71 million a year ago, largely driven by inflationary headwinds and heightened investment spending, partially offset by improved pricing and favorable product mix.

---

**Additional Information**

The Company's cash balance at the end of the quarter was \$54 million compared to \$40 million a year ago. Cash used by operations during the quarter was \$180 million compared to \$84 million a year ago. The increase in cash used by operations was due primarily to changes in working capital, predominantly an increase in inventory resulting from an intentional build-up in inventory due to increased demand for the Company's products amid the continuing global supply chain issues, as well as increased input costs.

Total debt as of March 26, 2022 was \$1.2 billion compared to \$1 billion at March 27, 2021. The Company's leverage ratio<sup>(1)</sup> at the end of the second quarter was 2.9x compared to 2.5x at the end of the prior year quarter. The Company repurchased approximately 227 thousand shares or \$9.4 million of its stock during the quarter.

**Fiscal 2022 Guidance**

The Company continues to expect fiscal 2022 GAAP EPS to be \$3.10 or better. The outlook takes into account increasing costs for commodities and freight, exacerbated by the current geopolitical environment, labor, a return to more normalized consumer demand patterns following extraordinary demand spanning two fiscal years and resuming more historical levels of promotional activity. This guidance further includes anticipated pricing actions across the Company's portfolio as well as investments in capacity expansion, brand building, consumer insights, innovation and eCommerce to drive sustainable growth. This outlook does not include the impact of acquisitions that may close during fiscal 2022.

**Conference Call**

The Company's senior management will host a conference call today at 4:30 p.m. Eastern Time | 1:30 p.m. Pacific Time to discuss the Company's second quarter fiscal 2022 results. The conference call and related materials can be accessed at <http://ir.central.com>.

Alternatively, to listen to the call by telephone, dial (201) 689-8345 (domestic and international).

<sup>(1)</sup> Calculated using adjusted EBITDA as per the Company's credit agreement, filed with the SEC on December 21, 2021.

## About Central Garden & Pet

Central Garden & Pet (NASDAQ: CENT) (NASDAQ: CENTA) understands that home is central to life and has proudly nurtured happy and healthy homes for over 40 years. With fiscal 2021 net sales of \$3.3 billion, Central is on a mission to lead the future of the pet and garden industries. The Company's innovative and trusted products are dedicated to helping lawns grow greener, gardens bloom bigger, pets live healthier and communities grow stronger. Central is home to a leading portfolio of more than 65 high-quality brands including Pennington, Nylabone, Kaytee, Amdro and Aqueon, strong manufacturing and distribution capabilities and a passionate, entrepreneurial growth culture. Central Garden & Pet is based in Walnut Creek, California and has over 7,000 employees across North America and Europe. For additional information about Central, please visit [www.central.com](http://www.central.com).

## Safe Harbor Statement

"Safe Harbor" Statement under the Private Securities Litigation Reform Act of 1995: The statements contained in this release which are not historical facts, including expectations for increased levels of investment to drive capacity expansion, brand building and eCommerce, increases in labor and freight cost as well as key commodities, the accretive expectations for recent acquisitions, a return to more normalized consumer demand patterns, in addition to resuming more normal levels of travel and promotional activity and their impact on future growth, and earnings guidance for fiscal 2022, are forward-looking statements that are subject to risks and uncertainties that could cause actual results to differ materially from those set forth in or implied by forward-looking statements. All forward-looking statements are based upon the Company's current expectations and various assumptions. There are a number of risks and uncertainties that could cause our actual results to differ materially from the forward-looking statements contained in this release including, but not limited to, the following factors:

- our ability to successfully manage the continuing impact of COVID-19 on our business, including but not limited to, the impact on our workforce, operations, fill rates, supply chain, demand for our products and services, and our financial results and condition;
  - the potential for future reductions in demand for product categories that benefited from the COVID-19 pandemic;
  - the success of our Central to Home strategy;
  - risks associated with our acquisition strategy, including our ability to successfully integrate acquisitions and the impact of purchase accounting on our financial results;
  - inflation and other adverse macro-economic conditions;
  - fluctuations in market prices for seeds and grains and other raw materials;
  - fluctuations in energy prices, fuel and related petrochemical costs;
  - our inability to pass through cost increases in a timely manner;
  - supply chain delays and disruptions resulting in lost sales, reduced fill rates and service levels and delays in expanding capacity and automating processes;
  - adverse weather conditions;
  - seasonality and fluctuations in our operating results and cash flow;
-

- supply shortages in pet birds, small animals and fish;
- dependence on a small number of customers for a significant portion of our business;
- impacts of tariffs or a trade war;
- consolidation trends in the retail industry;
- declines in consumer spending during economic downturns;
- risks associated with new product introductions, including the risk that our new products will not produce sufficient sales to recoup our investment;
- competition in our industries;
- continuing implementation of an enterprise resource planning information technology system;
- potential environmental liabilities;
- risk associated with international sourcing;
- access to and cost of additional capital;
- potential goodwill or intangible asset impairment;
- our dependence upon our key executives;
- our ability to recruit and retain new members of our management team to support our growing businesses and to hire and retain employees;
- our inability to protect our trademarks and other proprietary rights;
- litigation and product liability claims;
- regulatory issues;
- the impact of product recalls;
- potential costs and risks associated with actual or potential cyber attacks;
- potential dilution from issuance of authorized shares;
- the voting power associated with our Class B stock; and
- the impact of new accounting regulations and the possibility our effective tax rate will increase as a result of future changes in the corporate tax rate or other tax law changes.

These risks and others are described in the Company's Securities and Exchange Commission filings. The Company undertakes no obligation to publicly update these forward-looking statements to reflect new information, subsequent events or otherwise. The Company has not filed its Form 10-Q for the fiscal quarter ended March 26, 2022, so all financial results are preliminary and subject to change.

## Use of Non-GAAP Financial Measures

We report our financial results in accordance with accounting principles generally accepted in the United States (GAAP). However, to supplement the financial results prepared in accordance with GAAP, we use non-GAAP financial measures including non-GAAP net income and diluted net income per share, adjusted EBITDA and organic sales. Management believes these non-GAAP financial measures that exclude the impact of specific items (described below) may be useful to investors in their assessment of our ongoing operating performance and provide additional meaningful comparisons between current results and results in prior operating periods.

Adjusted EBITDA is defined by us as income before income tax, net other expense, net interest expense, depreciation and amortization and stock-based compensation (or operating income plus depreciation and amortization and stock-based compensation expense). We present adjusted EBITDA because we believe that adjusted EBITDA is a useful supplemental measure in evaluating the cash flows and performance of our business and provides greater transparency into our results of operations. Adjusted EBITDA is used by our management to perform such evaluation. Adjusted EBITDA should not be considered in isolation or as a substitute for cash flow from operations, income from operations or other income statement measures prepared in accordance with GAAP. We believe that adjusted EBITDA is frequently used by investors, securities analysts and other interested parties in their evaluation of companies, many of which present adjusted EBITDA when reporting their results. Other companies may calculate adjusted EBITDA differently and it may not be comparable.

We have also provided organic net sales, a non-GAAP measure that excludes the impact of businesses purchased or exited in the prior 12 months, because we believe it permits investors to better understand the performance of our historical business without the impact of recent acquisitions or dispositions.

The reconciliations of these non-GAAP measures to the most directly comparable financial measures calculated and presented in accordance with GAAP are shown in the tables below. We have not provided a reconciliation of non-GAAP guidance measures to the corresponding GAAP measures on a forward-looking basis due to the potential significant variability and limited visibility of the excluded items. We believe that the non-GAAP financial measures provide useful information to investors and other users of our financial statements by allowing for greater transparency in the review of our financial and operating performance. Management also uses these non-GAAP financial measures in making financial, operating and planning decisions and in evaluating our performance, and we believe these measures similarly may be useful to investors in evaluating our financial and operating performance and the trends in our business from management's point of view. While our management believes that non-GAAP measurements are useful supplemental information, such adjusted results are not intended to replace our GAAP financial results and should be read in conjunction with those GAAP results.

Non-GAAP financial measures reflect adjustments based on the following items:

- Incremental expenses from note redemption and issuance: we have excluded the impact of the incremental expenses incurred from the note redemption and issuance as they represent an infrequent transaction that occurs in limited circumstances that impacts the comparability between operating periods. We believe the adjustment of these expenses supplements the GAAP information with a measure that may be used to assess the sustainability of our operating performance.
- Loss on sale of business: we have excluded the impact of the loss on the sale of a business as it represents an infrequent transaction that occurs in limited circumstances that impacts the comparability between operating periods. We believe the adjustment of this loss supplements the GAAP information with a measure that may be used to assess the sustainability of our operating performance.

From time to time in the future, there may be other items that we may exclude if we believe that doing so is consistent with the goal of providing useful information to investors and management.

The non-GAAP adjustments reflect the following:

1. During the first quarter of fiscal 2021, we issued \$500 million aggregate principal amount of 4.125% senior notes due October 2030. We used a portion of the proceeds to redeem all of our outstanding 6.125% senior notes due 2023. As a result of our redemption of the 2023 Notes, we incurred incremental expenses of approximately \$10.0 million, comprised of a call premium payment of \$6.1 million, overlapping interest expense of approximately \$1.4 million and a \$2.5 million non-cash charge for the write-off of unamortized financing costs. These amounts are included in Interest expense in the condensed consolidated statements of operations.
  2. During the first quarter of fiscal 2021, we recognized a loss of \$2.6 million, included in selling, general and administrative expense in the consolidated statement of operations, from the sale of our Breeder's Choice business unit after concluding it was not a strategic business for our Pet segment.

#### Organic Net Sales Reconciliation

We have provided organic net sales, a non-GAAP measure that excludes the impact of recent acquisitions and dispositions, because we believe it permits investors to better understand the performance of our historical business. We define organic net sales as net sales from our historical business derived by excluding the net sales from businesses acquired or exited in the preceding 12 months. After an acquired business has been part of our consolidated results for 12 months, the change in net sales thereafter is considered part of the increase or decrease in organic net sales.
