of incorporation or organization)

68-0275553
(I.R.S. Employer
Identification No.)

1340 Treat Blvd., Suite 600, Walnut Creek, California 94597
(Address of principle executive offices)

(925) 948-4000
(Registrant's telephone number, including area code)

(Former name, former address and former fiscal year, if changed since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See definition of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer
Non-accelerated filer

Accelerated filer
Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date.

Common Stock Outstanding as of August 31, 2008	21,006,884
Class A Common Stock Outstanding as of August 31, 2008	48,462,453

Safe Harbor Statement under the Private Securities Litigation Reform Act of 1995

This Form 10-Q includes “forward-looking statements.” Forward-looking statements include statements concerning our plans, objectives, goals, strategies, future events, future revenues or performance, capital expenditures, financing needs, plans or intentions relating to acquisitions, our competitive strengths and weaknesses, our business strategy and the trends we anticipate in the industries and economies in which we operate and other information that is not historical information. When used in this Form 10-Q, the words “estimates,” “expects,” “anticipates,” “projects,” “plans,” “intends,” “believes” and variations of such words or similar expressions are intended to identify forward-looking statements. All forward-looking statements, including, without limitation, our examination of historical operating trends, are based upon our current expectations and various assumptions. Our expectations, beliefs and projections are expressed in good faith, and we believe there is a reasonable basis for them, but we cannot assure you that our expectations, beliefs and projections will be realized.

There are a number of risks and uncertainties that could cause our actual results to differ materially from the forward-looking statements contained in this Form 10-Q. Important factors that could cause our actual results to differ materially from the forward-looking statements we make in this Form 10-Q are set forth in our Form 10-K for the fiscal year ended September 29, 2007, including the factors described in the section entitled “Risk Factors” and in Part II Item 1A below. If any of these risks or uncertainties materialize, or if any of our underlying assumptions are incorrect, our actual results may differ significantly from the results that we express in or imply by any of our forward-looking statements. We do not undertake any obligation to revise these forward-looking statements to reflect future events or circumstances. Presently known risk factors include, but are not limited to, the following factors:

- seasonality and fluctuations in our operating results and cash flow;
- fluctuations in market prices for seeds and grains;
- supply shortages in small animals and pet birds;
- adverse weather conditions;
- declines in consumer spending during economic downturns;
- inability to comply with the terms of our indebtedness;

Table of Contents

- limitations in our debt capacity as a result of deterioration in operating results coupled with our current outstanding indebtedness and seasonal borrowing needs;
- dependence on a few customers for a significant portion of our business;
- consolidation trends in the retail industry;
- uncertainties about new product innovations and our marketing programs;
- competition in our industries;
- risks associated with our acquisition strategy;
- dependence upon our key executive officers;
- rising energy prices, fuel and related petrochemical costs;
- implementation of a new enterprise resource planning information technology system over the next several years;
- potential environmental liabilities;
- risk associated with international sourcing;
- litigation and product liability claims; and
- the voting power associated with our Class B stock.

CENTRAL GARDEN & PET COMPANY
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
Three and Nine Months Ended June 28, 2008
(unaudited)

1. Basis of Presentation

The condensed consolidated balance sheet of Central Garden & Pet Company and subsidiaries (the “Company” or “Central”) as of June 28, 2008, the condensed consolidated statements of operations for the three and nine months ended June 30, 2007 and June 28, 2008 and the condensed consolidated statements of cash flows for the nine months ended June 30, 2007 and June 28, 2008 have been prepared by the Company, without audit. In the opinion of management, all adjustments (which include only normal recurring adjustments, except as discussed in note 2) considered necessary to present fairly the financial position, results of operations and cash flows of the Company for the periods mentioned above, have been made.

For the Company’s foreign business in the UK, the local currency is the functional currency. Assets and liabilities are translated using the exchange rate in effect at the balance sheet date. Income and expenses are translated at the average exchange rate for the period. For the nine month period ended June 28, 2008, there was a comprehensive loss of \$254.7 million, which includes a net loss of \$253.4 million and foreign currency translation losses of \$1.3 million that are excluded from net earnings but reported in accumulated other comprehensive income, a separate component of shareholders’ equity. For the nine month period ended June 30, 2007, comprehensive income was \$36.7 million, which included net income of \$34.0 million and foreign currency translation gains of \$2.7 million. Deferred taxes are not provided on translation gains and losses, because the Company expects earnings of its foreign subsidiary to be permanently reinvested. Transaction gains and losses are included in results of operations.

Due to the seasonal nature of the Company’s garden business, the results of operations for the three and nine month periods ended June 28, 2008 are not indicative of the operating results that may be expected for the entire fiscal year. These interim financial statements should be read in conjunction with the annual audited financial statements, accounting policies and financial notes thereto, included in the Company’s 2007 Annual Report on Form 10-K, which has previously been filed with the Securities and Exchange Commission.

Minority Interest

Minority interest in the Company’s condensed consolidated financial statements represents the 20% interest not owned by Central in a consolidated subsidiary. Since the Company controls this subsidiary, its financial statements are fully consolidated with those of the Company, and the minority owner’s 20% share of the subsidiary’s net assets and results of operations is deducted and reported as minority interest.

Repurchase of Company Stock

During the quarter ended June 28, 2008, we repurchased 977,000 shares of our voting common stock at an aggregate cost of approximately \$4.5 million, or approximately \$4.60 per share. Subsequent to quarter-end, we repurchased an additional 302,200 shares during the first week of July 2008 for approximately \$1.4 million.

Recent Accounting Pronouncements — Effective September 30, 2007, the Company adopted the provisions of Financial Accounting Standards Board (“FASB”) Interpretation No. 48, “Accounting for Uncertainty in Income Taxes, an Interpretation of FASB Statement No. 109” (“FIN 48”). As a result of the implementation of FIN 48, the Company recognized a \$0.5 million increase in its reserve for uncertain tax positions and a cumulative effect adjustment to decrease retained earnings. At the adoption date, the Company had \$1.6 million of unrecognized tax benefits, \$0.8 million of which would affect the effective tax rate if recognized. The Company has not recorded any significant changes to the unrecognized tax benefits during the current fiscal year and does not anticipate that there will be any significant changes to these unrecognized tax benefits within the next twelve months.

Interest and penalties related to uncertain tax positions are recognized in income tax expense. As of the adoption date, the Company had approximately \$0.4 million of accrued interest and penalties related to uncertain tax positions.

The Company’s major taxing jurisdictions are the United States and various states. Tax years 2004 through 2007 for the Internal Revenue Service and 2002 through 2007 for various states remain open to examination. The Company does not believe that the outcome of any examination will have a material impact on the Company’s financial statements.

Table of Contents

In March 2008, the FASB issued Statement of Financial Accounting Standards (“SFAS”) No. 161, “Disclosures about Derivative Instruments and Hedging Activities – an Amendment of FASB Statement 133.” SFAS No. 161 enhances required disclosures regarding derivatives and hedging activities, including enhanced disclosures regarding how: (a) an entity uses derivative instruments; (b) derivative instruments and related hedged items are accounted for under SFAS No. 133, “Accounting for Derivatives and Hedging Activities;” and (c) derivative instruments and related hedged items affect an entity’s financial position, financial performance and cash flows. SFAS No. 161 is effective for the Company in its fiscal year beginning September 27, 2009. The Company is currently evaluating the impact of SFAS No. 161 on its consolidated financial statements.

In December 2007, the FASB issued Statement of Financial Accounting Standards (“SFAS”) No. 141(R) “Business Combinations,” which establishes accounting principles and disclosure requirements for all transactions in which a company obtains control over another business. This accounting pronouncement is effective prospectively for businesses acquired by the Company in its fiscal year beginning September 27, 2009. The Company is currently evaluating the impact of SFAS No. 141(R) on its consolidated financial statements.

In December 2007, the FASB issued SFAS No. 160, “Noncontrolling Interests in Consolidated Financial Statements, an amendment to ARB No. 51.” This standard prescribes the accounting by a parent company for minority interests held by other parties in a subsidiary of the parent company. SFAS No. 160 is effective for the Company in its fiscal year beginning September 27, 2009. The Company is currently evaluating the impact of SFAS No. 160 on its consolidated financial statements.

In February 2007, the FASB issued SFAS No. 159, “The Fair Value Option for Financial Assets and Financial Liabilities,” which provides companies an option to report selected financial assets and liabilities at fair value. SFAS No. 159 requires companies to provide information to assist financial statement users to understand the effect of a company’s choice to use fair value on its earnings, as well as to display on the face of the balance sheet the fair value of assets and liabilities chosen by the company for fair value accounting. Additionally, SFAS No. 159 establishes presentation and disclosure requirements designed to simplify comparisons between companies that choose different measurement attributes for similar types of assets and liabilities. SFAS No. 159 is effective for the Company in its fiscal year beginning September 28, 2008. The Company is currently evaluating the impact of SFAS No. 159 on its consolidated financial statements.

In September 2006, the FASB issued SFAS No. 157, “Fair Value Measurements.” SFAS No. 157 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The standard also establishes a framework for measuring fair value and provides for expanded disclosures about fair value measurements. SFAS No. 157 is effective for the Company’s fiscal year beginning September 28, 2008. The Company is currently evaluating the impact of SFAS No. 157 on its consolidated financial statements.

2. Goodwill

The Company accounts for goodwill in accordance with SFAS No. 142, “Goodwill and Other Intangible Assets,” and tests goodwill for impairment annually, or whenever events occur or circumstances change that would more likely than not reduce the fair value of a reporting unit below its carrying amount. This assessment involves the use of significant accounting judgments and estimates as to future operating results and discount rates. Changes in estimates or use of different assumptions could produce significantly different results. An impairment loss is generally recognized when the carrying amount of the reporting unit’s net assets exceeds the estimated fair value of the reporting unit. The Company uses discounted cash flow analysis to estimate the fair value of its reporting units. Current accounting convention also requires a comparison of current market capitalization to book value.

Based on the Company’s most recent annual impairment test as of July 1, 2007, the Company determined that there was no goodwill impairment as of September 29, 2007. However, due to the continuing depressed stock price, as of December 29, 2007, shareholders’ equity (book value) was approximately \$775 million and the market capitalization was approximately \$390 million. As a result, the Company concluded there was an indicator of possible goodwill impairment as of December 29, 2007.

Accordingly, the Company updated its analysis and evaluation of goodwill for possible impairment as of December 29, 2007, which included a comparison of market capitalization to the combined fair values of the Company’s four reporting units. Based on the Company’s updated analysis and sustained decline in market capitalization, the Company determined that it was required to take a non-cash charge of \$400 million in the first fiscal quarter to recognize the impairment of goodwill, comprised of \$202 million relating to the Garden Segment and \$198 million relating to the Pet Segment. This non-cash charge of \$400 million reduced the Company’s net earnings for the nine months ended June 28, 2008 by \$290.4 million, or \$4.07 per share.

The Company will perform its annual goodwill impairment test as of June 29, 2008, the first day of the fourth quarter of fiscal 2008.

Table of Contents

3. Long-Term Debt

As of June 28, 2008, the Company had \$650 million in senior secured credit facilities consisting of a \$350 million revolving credit facility maturing in February 2011 and a \$300 million term loan maturing in September 2012. Interest on the revolving credit facility is based on a rate equal to prime plus a margin, which fluctuates from 0% to 0.375%, or LIBOR plus a margin, which fluctuates from 0.75% to 1.50%, determined quarterly based on consolidated total debt to consolidated EBITDA for the most recent trailing 12-month period. Interest on the term loan is based on a rate equal to LIBOR plus a margin, which fluctuates from 1.50% to 1.75% or the prime rate plus a margin, which fluctuates from 0.50% to 0.75%, at the Company's option. The August 2007 amendment provides that the margin on loans increases when the leverage ratio exceeds 4.5 to 1.0. The term loan is payable in quarterly installments of \$750,000 with the balance payable in September 2012. These facilities are secured by substantially all of the Company's assets and contain certain financial covenants which require the Company to maintain minimum levels of interest coverage and maximum levels of total debt to EBITDA and that restrict the Company's ability to repurchase stock, make investments in or acquisitions of other businesses and pay dividends above certain levels over the life of the facilities.

The Company was in compliance with all financial covenants as of June 28, 2008. There was \$138.0 million outstanding at June 28, 2008 under the \$350 million revolving credit facility plus \$15.8 million outstanding under certain letters of credit. The remaining potential available borrowing capacity was up to \$196.2 million. The Company's borrowing capacity is also subject to compliance with the financial covenants in these credit agreements. As of June 28, 2008, our interest coverage ratio was 3.4 to 1.0 and our leverage ratio was 4.1 to 1.0, and we were in compliance with all financial covenants.

4. Stock-Based Compensation

The Company has various non-qualified stock-based compensation programs, which provide for stock option grants and restricted stock awards. The grant date fair values of stock options and restricted stock awards are amortized over the vesting period. Stock options may be granted to officers, key employees and directors. The Company accounts for stock-based awards in accordance with SFAS No. 123(R), "Share-Based Payment." Stock compensation expense is recognized over the requisite service period using the straight-line attribution method.

Stock options are generally granted with 30 month cliff vesting and 42 month expiration, but are also granted with graded vesting increments of 20% or 25% per year and expiring up to eight years from the date of grant. In fiscal 2008, 5.1 million performance options were granted that vest based on pre-determined Company goals for each of the next five years and expire at the end of the sixth year. Of the options granted in fiscal 2008, approximately 216,000 options scheduled to possibly vest in each of fiscal year 2009 and 2010 were amended and are now only subject to service vesting conditions. We currently estimate the performance-based options are probable of achievement and are recording the related expense over the estimated service period using the accelerated method. To the extent Company goals are not achieved, the amount of stock-based compensation recognized in the future will be adjusted.

During 2004 and 2005, respectively, the Company granted service-based nonvested stock option awards that were due to expire in June 2008 and June 2009. The grant price of the option awards were approximately \$12 to \$15 per share, significantly in excess of the current market price. In 2008, the Company modified options to purchase 1.4 million of these shares held by non-executive employees to extend the expiration date of these awards by three years. The primary purpose of the extended expiration was to encourage retention. The change to the expiration terms will result in an increase in stock-based compensation expense of approximately \$0.1 million in fiscal 2008.

The Company recognized share-based compensation expense of \$2.3 million and \$1.4 million for the three month periods ended June 28, 2008 and June 30, 2007, respectively, and \$9.1 million and \$3.7 million for the nine month periods ended June 28, 2008 and June 30, 2007, respectively as a component of selling, general and administrative expenses.

The fair value of each option award is estimated on the date of grant using the Black-Scholes option valuation model. Expected stock price volatilities are estimated based on the Company's historical volatility. The expected term of options granted is based on analyses of historical employee termination rates and option exercises. The risk-free rates are based on U.S. Treasury yields, for notes with comparable terms as the option grants, in effect at the time of the grant. For purposes of this valuation model, no dividends have been assumed. Assumptions for the nine month periods ended June 28, 2008 and June 30, 2007 used in the Black-Scholes model are presented below:

	June 28, 2008	June 30, 2007
Stock plans:		
Average expected life in years	4 years	4 years
Expected volatility	31%	28%
Risk-free interest rate	2.7%	4.6%

Table of Contents

The following table summarizes option activity for the nine months ended June 28, 2008:

	Number of Shares (in thousands)	Weighted Average Exercise Price per Share	Weighted Average Remaining Contractual Life (in years)	Aggregate Intrinsic Value (in thousands)

Cancelled or expired	(561)	\$ 13.46		
Outstanding at June 28, 2008	<u>9,446</u>	\$ 10.71	5 years	\$ 30
Exercisable at June 28, 2008	<u>1,646</u>	\$ 13.81	3 years	\$ 1
Expected to vest after June 28, 2008	<u>7,448</u>	\$ 10.06	5 years	\$ 29

The weighted average per share fair value of options granted during the nine months ended June 28, 2008 and June 30, 2007 was \$0.63 and \$4.12, respectively. The total intrinsic value of options exercised during the nine months ended June 28, 2008 and June 30, 2007 was \$0.1 million and \$6.5 million, respectively.

As of June 28, 2008, there was approximately \$7.4 million of total unrecognized compensation cost related to nonvested stock options, which is expected to be recognized over a remaining weighted-average vesting period of three years.

Restricted Stock Awards: As of June 28, 2008, there were 0.6 million shares of restricted stock awards outstanding. The awards generally vest in 20% or 25% annual increments beginning two or three years from the date of grant.

The following table summarizes restricted stock award activity during the nine months ended June 28, 2008:

	Number of Shares (in thousands)
Nonvested at September 29, 2007	648
Granted	453
Vested	(446)
Forfeited	(60)
Nonvested at June 28, 2008	<u>595</u>

The weighted average per share grant-date fair value of restricted stock awards granted during the first nine months of fiscal 2008 and fiscal 2007 was \$4.29 and \$14.78, respectively.

As of June 28, 2008, there was approximately \$5.3 million of unrecognized compensation cost related to nonvested restricted stock awards, which is expected to be recognized over a remaining weighted-average period of two years.

5. Earnings per Share

The following is a reconciliation of the numerators and denominators of the basic and diluted per share computations for income (loss) from continuing operations.

	Three Months Ended June 28, 2008			Nine Months Ended June 28, 2008		
	Income	Shares	Per Share	Income (Loss)	Shares	Per Share
(in thousands, except per share amounts)						
Basic EPS:						
Net income (loss) available to common shareholders	\$15,648	71,493	\$ 0.22	\$ (253,425)	71,367	\$ (3.55)
Effect of dilutive securities:						
Options to purchase common stock		63	—		—	—
Restricted shares		592	—		—	—
Diluted EPS:						
Net income (loss) available to common shareholders	<u>\$15,648</u>	<u>72,148</u>	<u>\$ 0.22</u>	<u>\$ (253,425)</u>	<u>71,367</u>	<u>\$ (3.55)</u>

	Three Months Ended June 30, 2007			Nine Months Ended June 30, 2007		
	Income	Shares	Per Share	Income	Shares	Per Share
(in thousands, except per share amounts)						
Basic EPS:						
Net income available to common shareholders	\$15,515	70,910	\$ 0.22	\$ 33,999	70,730	\$ 0.48
Effect of dilutive securities:						
Options to purchase common stock		403			587	—
Restricted Shares		670			684	(0.01)
Convertible preferred stock		65			65	—
Diluted EPS:						
Net income available to common shareholders	<u>\$15,515</u>	<u>72,048</u>	<u>\$ 0.22</u>	<u>\$ 33,999</u>	<u>72,066</u>	<u>\$ 0.47</u>

Options to purchase 9,446,652 shares of common stock at prices ranging from \$4.26 to \$17.99 per share were outstanding at June 28, 2008 and options to purchase 4,891,000 shares of common stock at prices ranging from \$4.26 to \$17.99 per share were outstanding at June 30, 2007.

For the three month periods ended June 28, 2008 and June 30, 2007, options to purchase 6,750,788 and 2,713,000 shares of common stock, respectively, were outstanding but were not included in the computation of diluted earnings per share because the option exercise prices were greater than the average market price of the common shares and, therefore, the effect would be anti-dilutive. Shares of common stock from the assumed conversion of the Company's convertible preferred stock, issued in February 2004, were included in the computation of diluted EPS for the three month period ended June 30, 2007 but were not included in the computation for the three month period ended June 28, 2008 as they were not outstanding during the quarter.

The potential effects of stock awards and the assumed conversion of the Company's convertible preferred stock were excluded from the diluted earnings per share calculation for the nine month period ended June 28, 2008, because their inclusion in a net loss period would be anti-dilutive to the earnings per share calculation. For the nine month period ended June 30, 2007, options to purchase 1,308,000 shares of common stock were outstanding but were not included in the computation of diluted earnings per share because the option exercise prices were greater than the average market price of the common shares and, therefore, the effect would be anti-dilutive. Shares of common stock from the assumed conversion of the convertible preferred stock were included in the computation of diluted EPS for the nine month period ended June 30, 2007.

6. Segment Information

Management has determined that the Company has two operating segments which are also reportable segments based on the level at which the Chief Executive Officer reviews the results of operations to make decisions regarding performance assessment and resource allocation. These operating segments are Pet Products and Garden Products.

	Three Months Ended		Nine Months Ended	
	June 30, 2007	June 28, 2008	June 30, 2007	June 28, 2008
Net sales:

7. Consolidating Condensed Financial Information of Guarantor Subsidiaries

Certain 100% wholly-owned subsidiaries of the Company (as listed below, collectively the “Guarantor Subsidiaries”) have guaranteed fully and unconditionally, on a joint and several basis, the obligation to pay principal and interest on the Company’s \$150,000,000 9-1/8% Senior Subordinated Notes (the “Notes”) issued on January 30, 2003. Certain subsidiaries and operating divisions are not guarantors of the Notes and have been included in the financial results of the Parent in the information below. These Non-Guarantor entities are not material to the Parent. Those subsidiaries that are guarantors and co-obligors of the Notes are as follows:

Farnam Companies, Inc. (including Thompson’s Veterinary Supply, Inc.)
 Four Paws Products Ltd.
 Grant Laboratories, Inc.
 Gulfstream Home & Garden, Inc.
 Interpet USA, LLC
 Kaytee Products, Inc.
 Matthews Redwood & Nursery Supply, Inc.
 New England Pottery, LLC
 Norcal Pottery Products, Inc.
 Pennington Seed, Inc. (including Phaeton Corporation (dba Unicorn Labs), Pennington Seed, Inc. of Nebraska, Gro Tec, Inc., Seeds West, Inc., All-Glass Aquarium Co., Inc. (including Oceanic Systems, Inc.) and Cedar Works, LLC.)
 Pets International, Ltd.
 T.F.H. Publications, Inc.
 Wellmark International (including B2E Corporation and B2E Biotech LLC)
 Matson, LLC

In lieu of providing separate audited financial statements for the Guarantor Subsidiaries, the Company has included the accompanying consolidating condensed financial statements based on the Company’s understanding of the Securities and Exchange Commission’s interpretation and application of Rule 3-10 of the Securities and Exchange Commission’s Regulation S-X.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Overview

Central Garden & Pet Company is a leading innovator, marketer and producer of quality branded products. We are one of the largest suppliers in the pet and lawn and garden supplies industries in the United States. The total pet industry is estimated to be approximately \$36 billion in annual retail sales. We estimate the annual retail sales of the pet supplies and ultra-premium pet food markets in the categories in which we participate to be approximately \$13 billion. The total lawn and garden market in the United States is estimated to be approximately \$95 billion in annual retail sales. We estimate the annual retail sales of the lawn and garden supplies markets in the categories in which we participate to be approximately \$27 billion.

Our pet supplies products include products for dogs and cats, including edible bones, premium healthy edible and non-edible chews, ultra-premium dog and cat food, leashes, collars, toys, pet carriers, grooming supplies and other accessories; products for birds, small animals and specialty pets, including food, cages and habitats, toys, chews and related accessories; animal and household health and insect control products; products for fish, reptiles and other aquarium-based pets, including aquariums, furniture and lighting fixtures, pumps, filters, water conditioners, food and supplements, and information and knowledge resources; and products for horses and livestock. These products are sold under a number of brand names including Adams, All-Glass Aquarium, Altosid, Aqueon, BioSpot, Breeder's Choice, Coralife, Farnam, Four Paws, Interpet, Kaytee, Kent Marine, Nylabone, Pet Select, Pre Strike, Oceanic, Super Pet, TFH, Zilla, and Zodiac.

Our lawn and garden supplies products include proprietary and non-proprietary grass seed; wild bird feed, bird feeders, bird houses and other birding accessories; weed, grass, ant and other herbicide, insecticide and pesticide products; and decorative outdoor lifestyle and lighting products including pottery, trellises and other wood products and holiday lighting. These products are sold under a number of brand names including AMDRO, GKI/Bethlehem Lighting, Grant's, Ironite, Lilly Miller, Matthews Four Seasons, New England Pottery, Norcal Pottery, Pennington, Over'n Out, Sevin and The Rebels.

In fiscal 2007, our consolidated net sales were \$1.7 billion, of which our lawn and garden segment, or Garden Products, accounted for approximately \$778 million and our pet segment, or Pet Products, accounted for approximately \$893 million. In fiscal 2007, our income from operations was \$99.4 million, of which Garden Products accounted for \$45.6 million and Pet Products accounted for \$94.3 million, before corporate expenses and eliminations of \$40.5 million.

Table of Contents

Background

We have transitioned our company to a leading marketer and producer of branded products from a traditional pet and lawn and garden supplies distributor. We made this transition because we recognized the opportunity to build a portfolio of leading brands and improve profitability by capitalizing on our knowledge of the pet and lawn and garden supplies sectors, strong relationships with retailers and nationwide sales and logistics network. Our goal was to diversify our business and improve operating margins by establishing a portfolio of leading brands. Since 1997, we have acquired numerous branded product companies and product lines, including Wellmark and Four Paws in fiscal 1997; Kaytee Products, TFH and Pennington Seed in fiscal 1998; Norcal Pottery in fiscal 1999; AMDRO and All-Glass Aquarium in fiscal 2000; Lilly Miller in fiscal 2001; Alaska Fish Fertilizer in fiscal 2002; Kent Marine, New England Pottery, Interpet, KRB Seed Company, (dba Budd's Seed), and Energy Savers Unlimited in fiscal 2004; Pets International in fiscal 2005; Farnam, Breeder's Choice, Tech Pac and Ironite in fiscal 2006; B2E Corporation in fiscal 2007 and Matson LLC in fiscal 2008.

Virtually all of our sales before fiscal 1997 were derived from distributing other manufacturers' products. Since then, our branded product sales have grown to approximately \$1.4 billion, or approximately 84% of total sales, in fiscal 2007. During this same period, our sales of other manufacturers' products have declined to approximately 16% of total sales, and our gross profit margins have improved from 13.6% in fiscal 1996 to 32.0% in fiscal 2007.

Recent Developments

Repurchase of Company Stock

During the quarter ended June 28, 2008, we repurchased 977,000 shares of our voting common stock at an aggregate cost of approximately \$4.5 million, or approximately \$4.60 per share. Subsequent to quarter-end, we repurchased an additional 302,200 shares during the first week of July 2008 for approximately \$1.4 million.

Goodwill

We account for goodwill in accordance with SFAS No. 142, "Goodwill and Other Intangible Assets," and test goodwill for impairment annually, or whenever events occur or circumstances change that would more likely than not reduce the fair value of a reporting unit below its carrying amount. This assessment involves the use of significant accounting judgments and estimates as to future operating results and discount rates. Changes in estimates or use of different assumptions could produce significantly different results. An impairment loss is generally recognized when the carrying amount of the reporting unit's net assets exceeds the estimated fair value of the reporting unit. We use discounted cash flow analysis to estimate the fair value of our reporting units. Current accounting convention also requires a comparison of current market capitalization to book value.

Based on our most recent annual impairment test as of July 1, 2007, we determined that there was no goodwill impairment as of September 29, 2007. However, due to the continuing depressed stock price, as of December 29, 2007, shareholders' equity (book value) was approximately \$775 million and the market capitalization was approximately \$390 million. As a result, we concluded there was an indicator of possible goodwill impairment as of December 29, 2007.

Accordingly, we updated our analysis and evaluation of goodwill for possible impairment as of December 29, 2007, which included a comparison of market capitalization to the combined fair values of our four reporting units. Based on our updated analysis and sustained decline in market capitalization, we determined that we were required to take a non-cash charge of \$400 million in the first fiscal quarter to recognize the impairment of goodwill, comprised of \$202 million relating to our Garden segment and \$198 million relating to our Pet segment. This non-cash charge of \$400 million reduced our net earnings for the nine months ended June 28, 2008 by \$290.4 million, or \$4.07 per share.

We believe the non-cash charge was not reflective of past results or our long-range forecast, which continues to project growth and margin improvement, and consequently, does not by itself indicate impairment. However, according to current accounting convention, we are required to place greater emphasis on current stock trading values than on our forecasts in performing our impairment assessment.

The Company will perform its annual goodwill impairment test as of June 29, 2008, the first day of the fourth quarter of fiscal 2008.

New Accounting Pronouncements

In March 2008, the FASB issued Statement of Financial Accounting Standards (“SFAS”) No. 161, “Disclosures about Derivative Instruments and Hedging Activities – an Amendment of FASB Statement 133.” SFAS No. 161 enhances required disclosures regarding derivatives and hedging activities, including enhanced disclosures regarding how: (a) an entity uses derivative instruments; (b) derivative instruments and related hedged items are accounted for under SFAS No. 133, “Accounting for Derivatives and Hedging Activities;” and (c) derivative instruments and related hedged items affect an entity’s financial position, financial performance and cash flows. SFAS No. 161 is effective for the Company in its fiscal year beginning September 27, 2009. The Company is currently evaluating the impact of SFAS No. 161 on its consolidated financial statements.

In December 2007, the Financial Accounting Standards Board (“FASB”) issued Statement of Financial Accounting Standards (“SFAS”) No. 141(R) “Business Combinations,” which establishes accounting principles and disclosure requirements for all transactions in which a company obtains control over another business. This accounting pronouncement is effective prospectively for businesses acquired by us in our fiscal year beginning September 27, 2009. We are currently evaluating the impact of SFAS No. 141(R) on our consolidated financial statements.

In December 2007, the FASB issued SFAS No. 160, “Noncontrolling Interests in Consolidated Financial Statements, an amendment to ARB No. 51.” This standard prescribes the accounting by a parent company for minority interests held by other parties in a subsidiary of the parent company. SFAS No. 160 is effective for us in our fiscal year beginning September 27, 2009. We are currently evaluating the impact of SFAS No. 160 on our consolidated financial statements.

In February 2007, the FASB issued SFAS No. 159, “The Fair Value Option for Financial Assets and Financial Liabilities,” which provides companies an option to report selected financial assets and liabilities at fair value. SFAS No. 159 requires companies to provide information to assist financial statement users to understand the effect of a company’s choice to use fair value on its earnings, as well as to display on the face of the balance sheet the fair value of assets and liabilities chosen by the company for fair value accounting. Additionally, SFAS No. 159 establishes presentation and disclosure requirements designed to simplify comparisons between companies that choose different measurement attributes for similar types of assets and liabilities. SFAS No. 159 is effective for us in our fiscal year beginning September 28, 2008. We are currently evaluating the impact of SFAS No. 159 on our consolidated financial statements.

In September 2006, the FASB issued SFAS No. 157, “Fair Value Measurements.” SFAS No. 157 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The standard also establishes a framework for measuring fair value and provides for expanded disclosures about fair value measurements. SFAS No. 157 is effective for our fiscal year beginning September 28, 2008. We are currently evaluating the impact of SFAS No. 157 on our consolidated financial statements.

Critical Accounting Policies, Estimates and Judgments

There have been no material changes to our critical accounting policies, estimates and assumptions or the judgments affecting the application of those accounting policies, except for our estimates regarding the fair value of goodwill and other intangible assets pursuant to SFAS No. 142, as set forth in Note 2 to the condensed consolidated financial statements, since our Annual Report on Form 10-K for the fiscal year ended September 29, 2007.

We adopted the provisions of FASB Interpretation No. 48, “Accounting for Uncertainty in Income Taxes, an Interpretation of FASB Statement No. 109” (“FIN 48”) as of September 30, 2007. Upon adoption of FIN 48, we recognized a \$0.5 million increase in our reserve for uncertain tax positions and a cumulative effect adjustment to decrease retained earnings.

Results of Operations

**Three Months Ended June 28, 2008
Compared with Three Months Ended June 30, 2007**

Net Sales

Net sales for the three months ended June 28, 2008 increased \$26.1 million, or 5.6%, to \$492.9 million from \$466.8 million for the three months ended June 30, 2007. Our branded product sales increased \$28.9 million and sales of other manufacturers' products decreased \$2.8 million. Pet Products' net sales declined \$0.3 million, or 0.1%, to \$239.4 million for the three months ended June 28, 2008 from \$239.7 million in the comparable fiscal 2007 period. Garden Products' net sales increased \$26.4 million, or 11.6%, to \$253.5 million for the three months ended June 28, 2008 from \$227.1 million in the comparable fiscal 2007 period. The increase was primarily in grass seed and bird feed products. In the prior year quarter, our Garden Products' net sales were negatively impacted due primarily to unfavorable weather conditions in many parts of the United States. Overall, weather conditions have improved although water restrictions remain in place in some areas. While our branded Pet Products' sales were approximately the same as the prior year quarter, lower sales in aquatics of approximately \$4 million and in equine of approximately \$2 million were offset primarily by increased sales in the dog, cat and small animal categories. We expect aquatics sales to remain soft for the remainder of fiscal 2008.

Gross Profit

Gross profit for the three months ended June 28, 2008 increased \$1.8 million, or 1.2%, to \$152.9 million from \$151.1 million for the three months ended June 30, 2007. Although the gross profit in dollars increased, gross profit as a percentage of net sales decreased from 32.4% for the three months ended June 30, 2007 to 31.0% for the three months ended June 28, 2008. The increase in gross profit dollars and the decrease in gross margin were due primarily to our Garden Products' segment. Increased sales helped increase gross profit dollars although the gross margin deteriorated approximately 2.1 percentage points due to rising input costs and product mix changes such as increased sales of lower margin wild bird feed. Pet Products' gross profit and gross profit as a percentage of sales remained relatively flat, as compared to the prior year quarter.

Selling, General and Administrative Expenses

Selling, general and administrative expenses increased \$5.2 million, or 4.6%, to \$119.1 million for the three months ended June 28, 2008 from \$113.9 million for the three months ended June 30, 2007. As a percentage of net sales, selling, general and administrative expenses decreased slightly to 24.2% for the three months ended June 28, 2008, compared with 24.4% in the comparable prior year quarter. The increase in selling, general and administrative expenses is discussed below.

Selling and delivery expense increased \$1.2 million, or 1.8%, from \$65.8 million for the three months ended June 30, 2007 to \$67.0 million for the three months ended June 28, 2008. As a percentage of net sales, selling and delivery expense decreased to 13.6% from 14.1% of net sales due primarily to lower advertising and promotional costs and payroll cost control measures partially offset by increased fuel costs.

Facilities expense was \$4.1 million for the three months ended June 28, 2008 and \$3.9 million for the three months ended June 30, 2007.

Warehouse and administrative expense increased \$3.8 million, or 8.6%, to \$48.0 million in the quarter ended June 28, 2008 from \$44.2 million for the three months ended June 30, 2007. The increase was due primarily to increased employee related costs and software amortization costs.

Net Interest Expense

Net interest expense for the three months ended June 28, 2008 decreased \$3.9 million, or 30.4%, to \$9.0 million from \$12.9 million for the three months ended June 30, 2007. The decrease was due primarily to lower interest rates on our floating rate debt and a modest decrease in average borrowings. Our borrowing rate for the quarter was approximately 5.3% compared to 7.4% a year ago.

Other Income

Other income decreased \$0.4 million to \$0.8 million for the quarter ended June 28, 2008 from \$1.2 million for the quarter ended June 30, 2007, due primarily to decreased earnings from investments accounted for under the equity method of accounting.

Table of Contents

Income Taxes

Our effective income tax rate was 38.0% for the quarters ended June 28, 2008 and June 30, 2007.

Nine Months Ended June 28, 2008 Compared with Nine Months Ended June 30, 2007

Net Sales

Net sales for the nine months ended June 28, 2008 increased \$21.6 million, or 1.7%, to \$1,291.4 million from \$1,269.8 million for the nine months ended June 30, 2007. Pet Products' net sales were essentially flat as compared to the nine month fiscal 2007 period. Garden Products' net sales increased \$21.4 million, or 3.6%, to \$619.4 million for the nine months ended June 28, 2008 from \$598.0 million in the comparable fiscal 2007 period. Our branded product sales increased \$35.3 million and sales of other manufacturers' products decreased \$13.7 million. The increase in Garden Products was primarily in grass seed, as prior year Garden Products' net sales were negatively impacted due primarily to unfavorable weather conditions in many parts of the United States, and bird feed products primarily due to price increases. While our branded Pet Products' sales were approximately the same as the prior year period, decreased sales in our aquatics business of approximately \$17 million and in our equine business of approximately \$6 million were offset primarily by increased sales in the dog, cat and small animal category.

Gross Profit

Gross profit for the nine months ended June 28, 2008 decreased \$9.8 million, or 2.3%, to \$407.1 million from \$416.9 million for the nine months ended June 30, 2007. Pet Products' and Garden Products' gross profit decreased \$6.6 million and \$3.2 million, respectively. Gross profit as a percentage of net sales decreased from 32.8% for the nine months ended June 30, 2007 to 31.5% for the nine months ended June 28, 2008 due primarily to rising costs. Our aquatic product margins continue to decline in an environment of weak tank sales and the weighted average cost of grain continues to increase.

Selling, General and Administrative Expenses

Selling, general and administrative expenses decreased \$8.3 million, or 2.5%, to \$319.2 million for the nine months ended June 28, 2008 from \$327.5 million for the nine months ended June 30, 2007. As a percentage of net sales, selling, general and administrative expenses decreased from 25.8% for the nine months ended June 30, 2007 to 24.7% for the nine months ended June 28, 2008. The decrease in selling, general and administrative expenses is discussed below.

Selling and delivery expense decreased \$2.2 million, or 1.3%, from \$174.3 million for the nine months ended June 30, 2007 to \$172.1 million for the nine months ended June 28, 2008. As a percentage of net sales, selling and delivery expense decreased to 13.3% from 13.7% of net sales due primarily to lower advertising and promotional costs and cost control measures partially offset by increased fuel costs.

Facilities expense remained relatively flat at \$11.6 million for the nine months ended June 28, 2008 and \$11.3 million for the nine months ended June 30, 2007.

Warehouse and administrative expense decreased \$6.4 million, or 4.5%, to \$135.5 million in the nine month period ended June 28, 2008 from \$141.9 million for the nine month period ended June 30, 2007. The decrease was due to gains of \$11.1 million from the sale of assets of \$6.3 million and a legal settlement of \$5.0 million, coupled with reduced third party provider costs. These decreases were partially offset by a non-cash impairment charge and increased employee related costs and software amortization costs.

Goodwill Impairment

We updated our analysis and evaluation of goodwill for possible impairment as of December 29, 2007. Applicable accounting standards require a comparison of the sum of the fair values of the reporting units to the current market capitalization when assessing goodwill for possible impairment. As a result, we recorded an impairment charge related to goodwill of approximately \$400 million, comprised of \$202 million in the Garden Products segment and \$198 million in the Pet Products segment, in the first quarter of fiscal 2008.

Table of Contents

Net Interest Expense

Net Interest Expense was \$29.7 million compared to \$36.0 million for the nine months ended June 30, 2007. The decrease was due primarily to lower interest rates on our floating rate debt. Our borrowing rate for the nine months ended June 28, 2008 was approximately 6.0% compared to 7.4% a year ago.

Other Income

Other income decreased \$0.4 million to \$2.5 million for the nine months ended June 28, 2008 from \$2.9 million for the nine months ended June 30, 2007, due primarily to decreased earnings from investments accounted for under the equity method of accounting.

Income Taxes

Our effective income tax rate was 25.5% for the nine months ended June 28, 2008 compared to 38.1% for the nine months ended June 30, 2007. The fiscal 2008 effective tax rate was lower than in the prior year due primarily to the non-cash goodwill impairment charge in the first quarter of fiscal 2008.

Inflation

The results of operations and financial condition are presented based upon historical cost. While it is difficult to accurately measure the impact of inflation, we believe that the effects of inflation on our operations are significant.

Weather and Seasonality

Historically, our sales of lawn and garden products have been influenced by weather and climate conditions in the different markets we serve. Additionally, the Garden Products' business has historically been highly seasonal. In fiscal 2007, approximately 62% of Garden Products' net sales and 57% of our total net sales occurred in the second and third fiscal quarters. Substantially all of Garden Products' operating income is typically generated in this period, which has historically offset the operating loss incurred during the first fiscal quarter of the year.

Liquidity and Capital Resources

We have financed our growth through a combination of bank borrowings, supplier credit, internally generated funds and sales of equity and debt securities to the public.

Historically, our business has been seasonal and our working capital requirements and capital resources tracked closely to this seasonal pattern. During the first fiscal quarter, accounts receivable reach their lowest level while inventory, accounts payable and short-term borrowings begin to increase. During the second fiscal quarter, accounts receivable, accounts payable and short-term borrowings increase, reflecting the build-up of inventory and related payables in anticipation of the peak lawn and garden selling season. During the third fiscal quarter, inventory levels remain relatively constant while accounts receivable peak and short-term borrowings start to decline as cash collections are received during the peak selling season. During the fourth fiscal quarter, inventory levels are at their lowest, and accounts receivable and payables are substantially reduced through conversion of receivables to cash.

We service two broad markets: pet supply and lawn and garden supply. Our pet supply businesses involve products that have a year round selling cycle with a slight degree of seasonality. As a result, it is not necessary to maintain large quantities of inventory to meet peak demands. Additionally, this level sales cycle eliminates the need for manufacturers to give extended credit terms to either distributors or retailers. On the other hand, our lawn and garden businesses are highly seasonal with approximately 62% of Garden Products' net sales occurring during the second and third fiscal quarters. For many manufacturers of garden products, this seasonality requires them to ship large quantities of their product well ahead of the peak consumer buying periods. To encourage distributors to stock large quantities of inventory, industry practice has been for manufacturers to give extended credit terms and/or promotional discounts.

Cash flows for the nine months ended June 28, 2008 were \$28.1 million of cash provided by operating activities, \$10.5 million of cash used in investing activities and \$30.2 million of cash used in financing activities. Net cash provided by operating activities increased \$31.0 million over the prior period. The improvement in cash from operating activities was attributable primarily to better working capital management. Net cash used in investing activities decreased \$52.9 million from the prior year period due primarily to lower capital expenditures in the current year period, the absence of acquisitions and proceeds received from sales of facilities, partially offset by the collection of a note in the prior year period. Net cash used in financing activities increased \$83.9 million from the prior year period due primarily to the use of additional operating cash flow generated in the current year period which reduced our seasonal reliance on our revolving line of credit.

Table of Contents

During the quarter ended June 28, 2008, we repurchased 977,000 shares of our voting common stock at an aggregate cost of approximately \$4.5 million, or approximately \$4.60 per share. Subsequent to quarter-end, we repurchased an additional 302,200 shares during the first week of July 2008 for approximately \$1.4 million.

At June 28, 2008, our total debt outstanding was \$583.8 million compared to \$616.3 million at June 30, 2007, due to increased operating cash flows and reduced capital expenditures and borrowings under our revolving line of credit.

We have \$650 million in senior secured credit facilities, consisting of a \$350 million revolving credit facility maturing in February 2011 and a \$300 million term loan maturing in September 2012. Interest on the revolving credit facility is based on a rate equal to prime plus a margin, which fluctuates from 0% to 0.375%, or LIBOR plus a margin, which fluctuates from 0.75% to 1.50%, determined quarterly based on consolidated total debt to consolidated EBITDA for the most recent trailing 12-month period. As of June 28, 2008, the applicable interest rate on the revolving credit facility was 3.87%. Interest on the term loan is based on a rate equal to LIBOR plus a margin, which fluctuates from 1.50% to 1.75%, or the prime rate plus a margin, which fluctuates from 0.50% to 0.75%, at our option. As of June 28, 2008, the applicable interest rate on the term loan was 3.99%. The term loan is payable in quarterly installments of \$750,000 with the balance payable in September 2012. These facilities are secured by substantially all of our assets and contain certain financial covenants that require us to maintain minimum levels of interest coverage and maximum levels of total debt to EBITDA and that restrict our ability to repurchase our stock, make investments in or acquisitions of other businesses and pay dividends above certain levels over the life of the facilities.

In March 2007 and in August 2007, we amended the maximum leverage and minimum interest coverage ratios, amended certain defined terms and amended certain negative covenants and other provisions of our credit agreement. In the August 2007 amendment, we also made certain changes to the interest rate on loans to provide for a margin on loans when our leverage rates exceed 4.5x. There was \$138.0 million outstanding at June 28, 2008 under the \$350 million revolving credit facility plus \$15.8 million outstanding under certain letters of credit. The remaining potential borrowing capacity was up to \$196.2 million. Our borrowing capacity is also subject to compliance with the financial covenants in our credit agreement. Through the fiscal quarter ending in June 2008, our credit agreement requires a minimum interest coverage ratio of 2.5 to 1.0 and a maximum leverage ratio of 5.0 to 1.0. As of June 28, 2008, our interest coverage ratio was 3.4 to 1.0 and our leverage ratio was 4.1 to 1.0, and we were in compliance with all financial covenants.

We believe that cash flows from operating activities, funds available under our revolving credit facility, and arrangements with suppliers will be adequate to fund our presently anticipated working capital requirements for the foreseeable future. We anticipate that our capital expenditures for fiscal 2008 will not exceed \$25 million, which is down from \$45 million previously stated. The decrease in expected capital expenditures is due primarily to our extension of the implementation schedule of a scalable enterprise-wide information technology platform, to provide additional time for preparing the organization for operating on such a system, and reduced other discretionary capital expenditures. Capital expenditures for 2009 and beyond will depend upon the pace of conversion of remaining legacy systems and the amount and timing of other discretionary capital expenditures.

As part of our growth strategy, we have acquired a number of companies, and we anticipate that we will continue to evaluate potential acquisition candidates in the future. If one or more potential material acquisition opportunities become available in the near future, we may require additional external capital. In addition, such acquisitions would subject us to the general risks associated with acquiring companies, particularly if the acquisitions are relatively large.

Off-Balance Sheet Arrangements

There have been no material changes to the information provided in our Annual Report on Form 10-K for the fiscal year ended September 29, 2007 regarding off-balance sheet arrangements.

Contractual Obligations

There have been no material changes outside the ordinary course of business in our contractual obligations set forth in the Management's Discussion and Analysis of Financial Condition and Results of Operations - Liquidity and Capital Resources in our Annual Report on Form 10-K for the fiscal year ended September 29, 2007.

Table of Contents

Item 3. Quantitative and Qualitative Disclosures About Market Risk

We believe there has been no material change in our exposure to market risk from that discussed in our fiscal 2007 Annual Report filed on Form 10-K.

Item 4. Controls and Procedures

(a) Our Chief Executive Officer and Chief Financial Officer have reviewed, as of the end of the period covered by this report, the “disclosure controls and procedures” (as defined in the Securities Exchange Act of 1934 Rules 13a-15(e) and 15d-15(e)) that ensure that information relating to the Company required to be disclosed by us in the reports that we file or submit under the Exchange Act, is recorded, processed, summarized and reported in a timely and proper manner and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure. Based upon this review, we believe that the disclosure controls and procedures are effective.

(b) *Changes in internal controls.* There were no changes in our internal controls during our last fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

On February 11, 2008, the Company and two of its affiliates were named as defendants in an action filed in United States District Court in the Western District of Texas in a matter entitled Perfect Birds LLC v. Kaytee Products, Inc., Pets International, Ltd. and Central Garden & Pet Co., No. W08CA042 (W.D. Texas – Waco Division). Plaintiff asserts various claims arising out of its \$1.2 million purchase of assets of the Company’s former affiliate, Perfect Birds, LLC, including claims of breach of contract, breach of implied warranty, fraud and improper trade practices, and seeks unspecified damages. Discovery in the case is in its early stages. The matter is currently scheduled for trial on March 9, 2009.

The Company may from time to time become involved in certain legal proceedings in the ordinary course of business. Currently, the Company is not a party to any other legal proceedings that management believes would have a material adverse effect on the financial position or results of operations of the Company.

Item 1A. Risk Factors

Except for the risk factors discussed below, there have been no material changes from the risk factors previously disclosed in our Form 10-K in response to Item 1A. to Part I of Form 10-K.

Seeds and grains we use to produce bird feed and grass seed are commodity products subject to price volatility that has had, and continues to have, a negative impact on us.

Our financial results depend on the cost of raw materials and our ability to pass along increases in these costs to our customers. In particular, our Pennington and Kaytee subsidiaries are exposed to fluctuations in market prices for commodity seeds and grains used to produce bird feed. Historically, market prices for commodity seeds and grains have fluctuated in response to a number of factors, including changes in United States government farm support programs, changes in international agricultural and trading policies and weather conditions during the growing and harvesting seasons.

To mitigate our exposure to changes in market prices, we enter into purchase contracts for grains, bird feed and grass seed to cover up to approximately one-third of the purchase requirements for a selling season. Since these contracts cover only a portion of our purchase requirements, as market prices for such products increase, our cost of production increases as well. In contrast, if market prices for such products decrease, we may end up purchasing grains and seeds pursuant to the purchase contracts at prices above market. In 2006, crop yields for grass seed and for the primary components of wild bird feed, notably milo, millet and sunflower were adversely impacted by drought conditions in key growing regions of the United States. Supply has been further limited as more and more farmers shift to corn-based crops for the production of ethanol to meet increased demand.

Table of Contents

During the fourth quarter of fiscal 2006 and in fiscal 2007, prices for some of our key crops increased substantially, and these price increases have continued in the first three quarters of fiscal 2008. Our cost of goods for grain increased approximately \$30 million in fiscal 2007 over fiscal 2006. To date in fiscal 2008, the weighted average cost of grain increased 49% over the first three quarters of fiscal 2007. Although we have been able to negotiate some price increases with our retailers, these price increases have not fully offset the rising costs. In fiscal 2007, the impact of these grain cost increases was only about half offset by price increases that we were able to obtain from our retailers. We can provide no assurance as to the timing or extent of our ability to implement additional price adjustments in the current context of rising costs or in the event of increased costs in the future. We also cannot predict to what extent price increases may negatively affect our sales volume. As retailers pass along price increases, consumers may shift to our lower margin pet bird feed, switch to competing products or reduce purchases of wild bird feed products.

A decline in consumers' discretionary spending or a change in consumer preferences could reduce our sales and harm our business.

Our sales ultimately depend on consumer discretionary spending, which is influenced by factors beyond our control, including general economic conditions, the availability of discretionary income and credit, weather, consumer confidence and unemployment levels. We may experience declines in sales during economic downturns. Any material decline in the amount of consumer discretionary spending could reduce our sales and harm our business. Since substantially all of our sales are in the United States, a declining U.S. economy may have a greater impact on us than on our competitors, some of which may have a larger percentage of international sales.

The success of our business also depends in part on our ability to identify and respond to evolving trends in demographics and consumer preferences. For example, in the last year, the demand for aquatics products has declined significantly. Our failure to timely identify or effectively respond to changing consumer tastes, preferences, spending patterns and lawn and garden and pet care needs could adversely affect the demand for our products and our profitability.

Inflation, economic uncertainty and adverse macro-economic conditions may harm our business.

Our revenues and margins are dependent on various economic factors, including rates of inflation, rising energy costs, consumer attitudes toward discretionary spending, currency fluctuations, and other macro-economic factors which may impact levels of consumer spending. During the last year, we have been adversely impacted by rising input costs related to domestic inflation, particularly relating to grain and seed prices, fuel prices and the ingredients used in our garden fertilizer and chemicals, and many of our other input costs. The rising costs have made it difficult for us increase prices to our retail customers at a pace that will enable us to preserve historical margins. Our business has also been negatively impacted by the current downturn in the housing market and by declining consumer confidence, as well as other macro-economic factors. As a result, our gross margins and operating income have been adversely impacted. If we are unable to pass through rising input costs and raise the price of our products, or consumer confidence continues to weaken, we may continue to experience gross margin declines.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

The following table sets forth the repurchases of any equity securities during the fiscal quarter ended June 28, 2008 and the dollar amount of authorized share repurchases remaining under our stock repurchase program.

Period	Total Number of Shares (or Units) Purchased	Average Price Paid per Share (or Units)	Total Number of Shares (or Units) Purchased as Part of Publicly Announced Plans or Programs	Maximum Number (or Approximate Dollar Value) of Shares (or Units) that May Yet Be Purchased Under the Plans or Programs (1)
March 30, 2008 – May 3, 2008	7,239(2)	\$ 4.61	—	\$ 89,986,000
May 4, 2008 – May 31, 2008	300	\$ 6.28	300	\$ 89,984,000
June 1, 2008 – June 28, 2008	976,700	\$ 4.60	976,700	\$ 85,490,000
Total	984,239	\$ 4.60	977,000	\$ 85,490,000

- (1) In December 2005, the Board of Directors authorized the repurchase of up to \$100 million of the Company's common stock. The program has no expiration date and expires when the amount authorized has been used or the Board withdraws its authorization.
- (2) All shares purchased during the period indicated represent withholding of a portion of shares to cover taxes in connection with vesting of restricted stock.

- 31.1 Certification of Principal Executive Officer Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
- 31.2 Certification of Principal Financial Officer Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
- 32.1 Certification of Principal Executive Officer Pursuant to 18 U.S.C. Section 1350.
- 32.2 Certification of Principal Financial Officer Pursuant to 18 U.S.C. Section 1350.

SIGNATURES

Pursuant to the requirements of the Securities Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunder duly authorized.

CENTRAL GARDEN & PET COMPANY
Registrant

Dated: September 9, 2008

/s/ WILLIAM E. BROWN

William E. Brown
Chairman and Chief Executive Officer
(Principal Executive Officer)

/s/ STUART W. BOOTH

Stuart W. Booth
Executive Vice President and Chief Financial Officer
(Principal Financial Officer)

I, William E. Brown, certify that:

1. I have reviewed this report on Form 10-Q for the quarter ended June 28, 2008 of Central Garden & Pet Company;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
