CENTRAL GARDEN & PET COMPANY

1340 Treat Blvd., Suite 600
Walnut Creek, California 94597

PROXY STATEMENT

The enclosed proxy is solicited by the Board of Directors of Central Garden & Pet Company (the "Company") to be used at the Annual Meeting of Stockholders on February 8, 2010 (the "Annual Meeting"), for the purposes set forth in the foregoing notice. This proxy statement and, in the case of holders of Common Stock and Class B Stock, the enclosed form of proxy were first sent to stockholders on or about December 30, 2009. Holders of Class A Common Stock will receive this proxy statement but will not be entitled to vote at the Annual Meeting of Stockholders or any adjournment thereof.

If the enclosed form of proxy is properly signed and returned by holders of Common Stock and Class B Stock, the shares represented thereby will be voted at the Annual Meeting in accordance with the instructions specified thereon. If the proxy does not specify how the shares represented thereby are to be voted, the proxy will be voted as recommended by the Board of Directors. Any stockholder signing a proxy in the form accompanying this proxy statement has the power to revoke it prior to or at the Annual Meeting. A proxy may be revoked by a writing delivered to the Secretary of the Company stating that the proxy is revoked, by a subsequent proxy signed by the person who signed the earlier proxy, or by attendance at the Annual Meeting and voting in person.

VOTING SECURITIES

Only stockholders of record of Common Stock and Class B Stock on the books of the Company as of 5:00 P.M., December 15, 2009, will be entitled to vote at the Annual Meeting.

As of the close of business on December 15, 2009, there were outstanding 17,800,683 shares of Common Stock of the Company, entitled to one vote per share, and 1,652,262 shares of Class B Stock of the Company, entitled to the lesser of ten votes per share or 49% of the total votes cast. There were also outstanding 46,599,265 shares of Class A Common Stock, which generally have no voting rights unless otherwise required by Delaware law. Holders of Common Stock and Class B Stock will vote together on all matters presented to the stockholders for their vote or approval at the meeting, including the election of directors.

The holders of a majority of the shares of Common Stock and Class B Stock of the Company entitled to vote, present in person or by proxy, will constitute a quorum for the transaction of business at the Annual Meeting or any adjournment thereof. Votes cast by proxy or in person at the Annual Meeting will be tabulated by the election inspector appointed for the meeting and will determine whether or not a quorum is present. The election inspector will treat abstentions and broker non-votes as shares that are present and entitled to vote for purposes of determining the presence of a quorum but as unvoted for purposes of determining the approval of any matter submitted to the stockholders for a vote.

With regard to the election of directors, votes may be cast "For" or "Withhold" for each nominee; votes that are withheld will be excluded entirely from the vote and will have no effect. The directors shall be elected by a plurality of the votes of the shares present in person or represented by proxy at the meeting and entitled to vote on the election of directors. As a result, if you withhold your authority to vote for any nominee, your vote will not count for or against the nominee, nor will a broker "non-vote" affect the outcome of the election.

The other matters submitted for stockholder approval at the Annual Meeting will be decided by the affirmative vote of a majority of the shares present, in person or by proxy, at the Annual Meeting and entitled to vote on the subject matter.

Abstentions are included in the determination of shares present for quorum purposes. Because abstentions represent shares entitled to vote, the effect of an abstention will be the same as a vote against a proposal. However, abstentions will have no effect on the election of directors.

If your shares are held in street name and you do not instruct your broker on how to vote your shares, your brokerage firm, in its discretion, may either leave your shares unvoted or vote your shares on routine matters. The proposal to ratify the appointment of Deloitte & Touche LLP as our independent registered public accounting firm for the current fiscal year should be treated as a routine matter. To the extent your brokerage firm votes your shares on your behalf on that proposal, your shares also will be counted as present for the purpose of determining a quorum.

ELECTION OF DIRECTORS

The persons named below are nominees for director to serve until the next annual meeting of stockholders and until their successors shall have been elected. The nominees are all members of the present Board of Directors. In the absence of instructions to the contrary, shares represented by proxy will be voted for the election of all such nominees to the Board of Directors. If any nominee is unable or unwilling to be a candidate for the office of director at the date of the Annual Meeting, or any adjournment thereof, the proxies will vote for such substitute nominee as shall be designated by the proxies. Management has no reason to believe that any of the nominees will be unable or unwilling to serve if elected. Director Nominations

Due to the limited size of the Board, the Board has determined that it is not appropriate at this time to establish a separate nominating committee. As such, the entire Board fulfills the function of nominating additional directors. A majority of the members of the Board have been determined by the Board to be independent under the standards established by NASDAQ. At a minimum, the Chairman of the Board, as well as at least two independent directors, must interview any qualified candidates prior to nomination. Other directors and members of management will also interview each candidate as requested by the Chairman. Once potential candidates have successfully progressed through the interview stage, the independent directors will meet in executive session to consider the screened candidates. All director nominees must be selected, or recommended for the Board's selection, by a majority of the independent directors.

A majority of the members of the Board must be independent directors as defined in NASDAQ Rule 5605(a)(2). When considering potential director candidates, the Board also considers the candidate's knowledge, experience, integrity, leadership, reputation and ability to understand the Company's business. In addition, all director nominees must possess certain core competencies, some of which may include experience in consumer products, logistics, product design, merchandising, marketing, general operations, strategy, human resources, technology, media or public relations, finance or accounting, or experience as a Chief Executive Officer or Chief Financial Officer.

The Board will consider any director candidate recommended by stockholders, provided that the candidate satisfies the minimum qualifications for directors as established from time to time by the Board. To be considered, stockholders must submit recommendations to the Company's secretary for consideration by the Board no later than 120 days before the annual meeting of stockholders. To date, the Board has not received any recommended nominees for consideration at the Annual Meeting from any non-management stockholder or group of stockholders that beneficially owns five percent or more of the Company's voting stock.

When the need arises, the Company engages independent search firms and consultants to identify potential director nominees and assist the Board in identifying a diverse pool of qualified candidates and in evaluating and pursuing individual candidates at the direction of the Chairman of the Board.

All of the nominees included on this year's proxy card are directors standing for re-election.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

Overview

The Company uses three primary tools to compensate executives: base salary, annual bonus and long-term equity compensation. Together they combine to provide an executive's total compensation package. The Company does not provide benefits or perquisites of extraordinary value to its executives from the Company's perspective. The Company views base salary as a primary indicator of the market value needed to attract and retain executives with the skills and expertise to perform the duties and discharge the responsibilities of their positions. Annual bonus is principally seen as a means of rewarding superior job performance and enhancing base salary to meet current market value, and the Company utilizes restricted stock and stock options as a means of linking executives' long-term benefits to the rate of return received by stockholders and as retention devices. The objectives of the Company's compensation program are to recruit and retain high-caliber executives, and to incentivize those executives to achieve the best possible financial results for the Company and its stockholders.

The Company's compensation program rewards executives for achievement of corporate and unit operating goals and for their individual contributions. The majority of each executive's total compensation opportunity is weighted toward incentive compensation tied to the financial performance of the Company and its business units. When the Company does not achieve satisfactory financial results and/or its stock price does not appreciate, the compensation that can be realized by the Company's executives may be substantially reduced. When the Company exceeds financial expectations and/or its stock price appreciates, the compensation that can be realized by the Company's executives may be substantially increased. The Compensation Committee believes that this is the most effective means of aligning executive incentives with stockholders' interests.

Process

As described below, the Compensation Committee uses surveys and reports prepared internally and by compensation consulting firms to understand the compensation levels and pay structure at peer group companies. The Company's structural compensation is generally targeted within the broad range of compensation paid by the peer group; however, we also use our judgment to determine specific pay levels necessary to attract and retain executive talent. In exercising this judgment, we look beyond the market data and place significant weight on individual job performance and compensation history, future potential, internal comparisons, retention risk for individual executives, and, in the case of new hires, compensation at former employers.

With respect to the compensation of William E. Brown, the Company's Chairman and Chief Executive Officer, we retained an external compensation consultant as part of our process of determining his salary, bonus potential, actual bonus and equity compensation. With respect to the Company's other executive officers, in addition to obtaining the services of compensation consultants from time to time, we receive and consider the recommendations of the Chairman and Chief Executive Officer and consult with the Company's Vice President of Human Resources as part of our process of determining compensation. The Chief Executive Officer is invited to attend portions of select meetings of the Compensation Committee, although he does not vote with the Committee. Other executive officers have no role in making decisions regarding compensation of our executive officers.

The Compensation Committee determines base salary and potential bonus as of each officer's hire date, and we generally reconsider both elements on or about each anniversary of that hire date. We generally determine officers' annual bonus and whether performance targets have been met for equity performance-based awards in the succeeding fiscal year after the Company's financial results for the prior fiscal year are announced. We generally grant each officer a certain number of stock options and/or shares of restricted stock upon his or her hire date and consider granting additional awards on an annual basis. We generally do not grant bonuses or equity compensation to existing officers on a "one-off" basis outside of the standard schedule.

Compensation Consultants and Benchmarking

From time to time, the Company and the Compensation Committee have retained the services of a compensation consulting firm to assist the Chief Executive Officer and the Compensation Committee in formulating their recommendations regarding executive compensation. In both fiscal 2008 and fiscal 2009, we retained the compensation consulting firm, Towers Perrin, to advise us on the appropriate compensation package for Mr. Brown. For our other executive officers, the Company consulted with Towers Perrin and prepared its own market analysis based on a methodology and peer group similar to that of the previous reports prepared by outside consultants. The peer group includes the following lawn and garden and pet supplies companies and other consumer products companies: Acuity Brands, Church & Dwight Co., Inc., Del Monte Foods Company, FMC Corporation, Hasbro, Inc., Lesco, Inc., The Mosaic Company, PetsMart, Inc., Petco Animal Supplies, Ralcorp Holdings, Inc., Spectrum Brands, Inc., The Scotts Miracle-Gro Company, Terra Industries Inc., The Toro Company, Tractor Supply Company, Tupperware Brands Corporation and Wolverine Worldwide, Inc.

Towers Perrin's role in the Chief Executive Officer compensation process consisted of advising the Compensation Committee on potential compensation strategies, surveying the compensation paid to the Chief Executive Officers of certain peer companies and confirming that the Company's compensation practices were not inconsistent with the Peer Group. The Compensation Committee, after consultation with Towers Perrin, determined that the principles for designing the Chief Executive Officer's compensation should include:

- aligning incentive compensation potential with significant improvements in shareholder value;
- reflecting a minimum required share return or financial performance before incentive compensation is earned;
- seeking consistency in level of compensation, mix and design of program with competitive levels;
- incorporating the structure and performance requirements of the broad employee stock option grants along with higher expectations for the Chief Executive Officer; and
- establishing a sufficient level of equity incentives to motivate the Chief Executive Officer to achieve high performance and enhance shareholder value.

Based on the survey of peer companies, Towers Perrin advised the Compensation Committee that the total annual compensation paid to peer company chief executive officers ranged from approximately \$1.8-2.5 million, and the Compensation Committee targeted a total annual compensation for the Company's Chief Executive Officer ranging from \$2.0-2.5 million, with a significant majority of such compensation to be at risk depending on the Company's financial performance. After consideration of various compensation strategies, the Compensation Committee approved the compensation arrangements described below.

For our other executive officers, the Compensation Committee used the internal report to help determine the market value compensation for the executive officers. The Company normalized the peer group data for size based on the EBIT (earnings before interest and taxes) and other relevant financial metrics of the peer companies. Survey data, coupled with performance-based peer group evaluations, were used to help determine competitive short and long-term awards for executives. Generally, the Compensation Committee targets compensation within the mid-range of compensation paid by the peer group, but compensation is not set to meet specific benchmarks or percentiles within the peer group.

Allocation and Amount

The Company compensates its executives through a combination of annual cash compensation (comprised of base salary and annual bonus) and long-term incentive compensation (comprised of stock options and, in some cases, restricted stock grants). The Compensation Committee views base salary and the annual bonus target as an essential part of attracting, retaining and motivating executive officers. The Compensation Committee also believes, based on market data and actual experience, that equity incentive compensation is an essential factor in recruiting and retaining top executives and in driving superior performance.

The use and relative weights of base salary, annual bonus and long-term equity compensation are based on a subjective determination by the Compensation Committee of the effectiveness of each in supporting the Company's strategic objectives and operating and talent strategies, as well as the prevalence, weight and value of these elements for executives at other companies. Generally, the Compensation Committee views the various elements of compensation as part of one overall package but believes that a majority of the total compensation package should be weighted toward the performance of the Company to align management's interest with our stockholders. As a result, base salary, benefits and perquisites generally represent less than half of each executive's potential compensation if the Company performs at expected levels, reflecting the importance of performance-based compensation. For the Chief Executive Officer, the Committee targets substantially more than half of his total compensation to be at-risk. The Company uses cash compensation primarily for short-term incentives and rewards, base salaries, new hire signing bonuses and severance arrangements.

When evaluating corporate performance, the Committee generally considers financial metrics such as revenue, EBIT, earnings per share and working capital levels. When evaluating individual performance, the Committee considers the financial performance of the individual's business unit and the individual's overall leadership and management skills, ability to identify, close and integrate business acquisitions, success in attracting, retaining and developing qualified subordinates, success in achieving corporate and strategic objectives and ability to work with peers and supervisors in an effective and collegial manner.

The Committee uses tally sheets setting forth all components of compensation, including dollar amounts for salary, annual bonus and perquisites and the value of unexercised stock options and restricted stock awards, to assist us in balancing the elements. If the tally sheets indicate that a particular executive's compensation is not within the range of our peer companies, we may adjust the compensation accordingly.

When making compensation decisions, the Compensation Committee considers the issue of internal pay equity between the compensation of other Company officers compared to the compensation of the Chief Executive Officer. We also consider issues relating to the corporate tax and accounting treatment of various forms of compensation. We consider the impact of compensation decisions on stockholder dilution, and we make our decisions with that and other goals in mind.

We continue to subscribe to the philosophy that the Company's overall performance and its return to stockholders will be the primary areas of consideration when rewarding the Company's top executives. It is our goal to ensure that our executives are paid competitively with the market and are rewarded for performance that benefits the stockholders.

Salary

The Compensation Committee generally reviews the base salary of the executive officers each year. Historically, the named executive officers have received annual increases consistent with the movement of wages in the marketplace and, on limited occasions, to reflect individual performance, promotions or increased responsibilities. In some instances, the Compensation Committee has adjusted base salaries of individual named executive officers for retention reasons or to maintain internal pay equity among the senior executives. Based on its review, the Committee determined that for fiscal 2009, base salary increases were required for certain executives.

Based on an analysis prepared by Towers Perrin, in December 2008, the Compensation Committee increased Mr. Brown's base annual salary, effective as of October 1, 2008, to \$650,000 to bring it closer to market norms. In connection with his appointment as Executive Vice President, the Compensation Committee increased Mr. Reed's annual base salary to \$425,000 to reflect his increased responsibilities. At his request, Mr. Heim was given a new role within the Company and the flexibility to reduce his working hours and his salary was adjusted accordingly. The salaries of Mr. Fleischer and Mr. Blade are as provided in their employment agreements and were determined based on market norms.

Annual Bonus

The Compensation Committee determines the actual amount of bonus awarded to each named executive officer after the end of each fiscal year primarily by considering the financial results of the Company for the given year and the officer's individual performance and contribution to the Company. The bonus may be paid in cash or equity. We generally set potential target bonuses for each named executive officer at the beginning of each fiscal year as a percentage of his or her base salary.

When determining the amount of cash bonuses, the Committee generally considers the Company's revenue, EBIT, earnings per share and working capital levels but may consider other or different factors in any given year. Although the Company's financial performance in the prior fiscal year highly influences the amount of bonus, we do not use a pre-determined formula to calculate any officer's bonus compensation or assign weights to individual financial metrics and have full discretion to determine annual bonuses up to and beyond the amount of such officer's bonus potential for the year. Because of the subjective element involved, the financial metrics considered and the bonuses paid in one year may not be representative of what may have been paid in prior years or may be paid in future years. The target bonus percentages are set at a level to provide that the executive's total compensation opportunity is competitive with amounts paid for similar performance in comparable executive positions by our peer companies.

Fiscal 2008 Bonuses. In March 2009, the Compensation Committee met to determine bonuses based on the Company's performance in fiscal 2008. The following table sets forth the target bonus and actual bonus paid for each of the named executive officers with respect to fiscal 2008:

Executive Officer	% of Fiscal 2008 Base Salary		Bonus For Fiscal 2008
	Target	Actual	
William E. Brown	—%	52%	\$215,000
Stuart W. Booth	50%	35%	\$133,000
James V. Heim	50%	35%	\$145,200
Michael A. Reed	50%	38%	\$155,000

The Compensation Committee did not assign a target percentage for Mr. Brown in fiscal 2008, because the Compensation Committee believed that his compensation should be principally linked to the equity performance of the Company to align his interest with the long-term interest of the Company's stockholders. In determining whether to award bonuses to the named executive officers for fiscal 2008, the Committee considered specific elements of the Company's financial performance in fiscal 2008, including revenue, EBIT and earnings per share. The Committee considered each of these measures against the comparable prior year performance and the Company's internal budget for fiscal 2008, as opposed to particular pre-determined targets or similar metrics within the Company's industries.

In particular, sales increased approximately 2% year over year, the Company's diluted earnings per share, excluding the impairment of goodwill, other intangibles and long-lived assets and gains related to the sale of properties and legal settlement proceeds, increased from \$0.45 in fiscal 2007 to \$0.49 in fiscal 2008, and the Company's stock price fell considerably. The Committee considered these factors in their totality and did not consider threshold or maximum amounts necessary to obtain any of, or more than, the target bonus percentage.

Fiscal 2009. The Compensation Committee has not yet determined the amount of bonuses, if any, to be paid to the named executive officers with respect to fiscal 2009. The following table sets forth the target bonus percentages for each of the named executive officers with respect to fiscal 2009.

<u>Executive Officer</u>	<u>% of Fiscal 2009 Base Salary Target</u>
William E. Brown	75%
Jeffrey A. Blade	50%*
Stuart W. Booth	50%
Glen R. Fleischer	50%
James V. Heim	50%
Michael A. Reed	50%

* Pro-rated.

The Compensation Committee selected a target percentage for Mr. Brown to reflect his position as Chief Executive Officer. For the other executive officers, the Compensation Committee chose the same target percentage for fiscal 2009 as fiscal 2008, because the Committee believes that the bonus and potential equity appreciation should represent the majority of officer compensation if the Company's financial performance improves. The Company will report fiscal 2009 bonus determinations, if any, in a Form 8-K once decisions are made in early 2010.

The Company does not have a policy regarding the recovery or adjustment of awards based on Company performance if a material financial measure considered by the Committee in any particular year is subsequently restated. In such event, the Compensation Committee would consider whether it is appropriate to seek recovery of previously paid awards or adjust future awards appropriately.

Stock Options

The Compensation Committee determines the size of executive officers' initial hire option grants with primary consideration towards making the offer of employment market competitive. The size of annual option grants to officers is determined after giving consideration to market factors, the officer's performance over the fiscal year, awards previously granted to the officer, such officer's accumulated vested and unvested awards, the current value and potential value over time using stock appreciation assumptions for vested and unvested awards, the vesting schedule of the officer's outstanding awards, comparison of individual awards between executives and in relation to other compensation elements, stockholder dilution and total compensation expense.

In fiscal 2009, the Compensation Committee granted fewer options to employees generally, including most of the Company's executive officers, than in fiscal 2008, because the price of the Company's stock had increased over the last year which meant that the Company needed to grant fewer options to maintain the Black Scholes value of the option grants to these executives.

Consistent with the fiscal 2008 award and based on the recommendations of Towers Perrin and the belief of the Compensation Committee that the significant majority of the Chief Executive Officer's compensation should be tied to the Company's financial performance, in fiscal 2009, the Compensation Committee granted Mr. Brown options to purchase an aggregate of 1,500,000 shares consisting of 50% Common Stock and 50% Class A Common Stock, all of which were premium priced and performance-based. The grant consisted of 500,000 shares at an exercise price of \$10.00 per share, 500,000 shares at an exercise price of \$12.50 per share, and 500,000 shares at an exercise price of \$15.00 per share. The exercise prices were between 121% and 188% higher than the grant date closing prices of the Company's Common Stock of \$8.28 per share and Class A Common Stock of \$8.00 per share. The significant premium in the exercise price means that Mr. Brown will not experience any equity appreciation unless the Company's stock rebounds to more than \$10.00 per share. The Black Scholes value of the options granted to the Chief Executive Officer in fiscal 2009 was approximately \$1.9 million, but does not represent the actual value that may be realized.

Stock options granted to the other executive officers during fiscal 2009 were performance-based but had an exercise price equal to the closing share price on the date of the grant. The performance-based stock options granted in fiscal 2009 vest in five equal annual installments commencing one year from the date of grant subject to the satisfaction of certain annual or cumulative performance targets for each of the fiscal years ending September 2009, 2010, 2011, 2012 and 2013. The performance targets are (i) earnings before interest and taxes adjusted for acquisitions and divestitures, non-operating income or expense and other adjustments determined by the Compensation Committee (the "Adjusted EBIT Target") and (ii) net controllable assets, which is intended to award employees for reductions in average working capital (the "Net Controllable Assets Target"). For the executive officers, there are separate targets for each of the Company, the Pet business and the Garden business. These targets account for 20%, 40% and 40%, respectively, of the total eligible performance-based vesting. If the targets in a particular year are not met, the employee can still vest in the options if the Company's or applicable segments' cumulative performance exceeds the cumulative targets in subsequent years. The Company believes that the disclosure of the actual target amounts would cause competitive harm, because they reflect internal projections over five years, and because they could be misinterpreted as Company earnings guidance.

Based on the percentage of the targets satisfied in fiscal 2008, the Compensation Committee believes that there is a high probability that the majority of the targets will be satisfied if the Company returns to historical growth levels. The Compensation Committee has not yet determined the percentage of the fiscal 2009 performance targets that were satisfied. Once a determination has been made in early 2010, the Company will disclose the percentage of the performance targets achieved in a Form 8-K. Executives must generally be employed by the Company at the time of vesting to exercise the options.

The Company does not have a program or practice of timing option grants in connection with the release of material non-public information.

Restricted Stock

The Company has historically utilized stock options as the principal means of providing its executive officers with equity incentive compensation. However, the Company has made grants of restricted stock to several executive officers upon the commencement of employment or in connection with arrangements providing for a post-termination consulting relationship with the Company and their entry into confidentiality and non-competition agreements. Generally, restricted stock vests, and the restrictions on transfer lapse, in accordance with a schedule determined by the Compensation Committee. The Compensation Committee has the authority to accelerate the time at which restrictions lapse, and/or remove restrictions, on previously granted restricted stock.

In December 2008, the Compensation Committee granted Mr. Brown 25,000 shares of restricted Class A Common Stock and 25,000 shares of restricted Common Stock in an attempt to bring his fiscal 2008 compensation more in line with the compensation paid to peer company chief executive officers. Notwithstanding this grant, the Compensation Committee believes that the Chief Executive Officer's compensation package for fiscal 2008 was substantially below market norms.

In fiscal 2009, the Compensation Committee also granted Messrs. Blade and Fleischer 40,000 and 50,000 shares of restricted Class A Common Stock, respectively, as part of their employment offer. These shares vest five years after the date of grant.

Stock Ownership Requirements

The Company does not have any stock ownership requirements, guidelines or expectations or any policies regarding hedging the risk of stock ownership.

Post-Employment Arrangements

Under the terms of our employment agreements and non-compete and post-employment consulting agreements, the named executive officers, other than Mr. Brown, are entitled to payments and benefits upon the occurrence of

specified events, including termination of employment. The specific terms of these arrangements, as well as an estimate of the compensation that would have been payable had they been triggered as of fiscal year-end, or that will be paid to Mr. Booth pursuant to his separation agreement, are described below in detail in the section titled "Potential Payments Upon Termination" on page 21. Our equity-based compensation plans and employment agreements do not provide for special payments to our named executive officers upon a change-in-control of the Company.

In the case of each employment agreement, the terms of these arrangements were set through the course of arms-length negotiations with each of the named executive officers. As part of these negotiations, the Compensation Committee analyzed the terms of the same or similar arrangements for comparable executives employed by some companies in our peer group. This approach was used in setting the amounts payable and the triggering events under the arrangements. These provisions were intended to provide the individuals with a fixed amount of compensation that would offset the potential risk of leaving their prior employer or foregoing other opportunities to join or remain with the Company. The Committee considered the aggregate potential obligations of the Company in the context of the desirability of hiring the individual and the expected compensation upon joining us.

The non-compete and post-termination consulting agreements are intended to protect, to the maximum extent permitted by law, the Company's confidential information, and payments thereunder are conditioned upon the executive not going to work for one of our principal competitors within a specified period of time following separation from the Company.

Benefits and Perquisites

In addition to qualified retirement plans generally available to employees and nonqualified deferred compensation plans available to senior executives, the Company provides its executives with benefits such as medical, dental, life and disability insurance and other benefits that are generally available to full time employees. The Company pays for a leased automobile or car allowance for the named executive officers, except for Mr. Brown.

Accounting and Tax Treatment

In determining executive compensation, the Compensation Committee considers, among other factors, the possible tax consequences to the Company and to the executives. However, we believe that it is important to retain maximum flexibility in designing compensation programs that meet the Company's stated objectives. For this reason, we will not necessarily limit compensation to those levels or types of compensation that will be tax deductible. We do of course consider alternative forms of compensation, consistent with the Company's compensation goals, that preserve deductibility.

Section 162(m) of the Internal Revenue Code generally does not allow a tax deduction to public companies for compensation over \$1,000,000 paid to the Chief Executive Officer or any of the four other most highly compensated executive officers unless the compensation is paid based solely on the attainment of one or more pre-established objective performance goals and certain other requirements are met. To date, the Company's non-equity compensation plans have generally not been designed to permit us to grant awards that qualify for deductibility under Section 162(m).

Compensation Committee Report

The Compensation Committee has reviewed the Compensation Discussion and Analysis and discussed that analysis with management. Based on its review and discussions with management, the Compensation Committee recommended to our Board that the Compensation Discussion and Analysis be included in this proxy statement and incorporated by reference into the Company's Annual Report on Form 10-K for the fiscal year ended on September 26, 2009. This report is provided by the following independent directors, who comprise the Compensation Committee:

Potential Payments Upon Termination

SEC regulations require that we estimate the value of severance benefits payable to the named executive officers assuming that the triggering event (a termination without cause) occurred on September 26, 2009, the last day of our 2009 fiscal year.

As a general matter, potential payments upon termination or change in control are not part of the Company's compensation objectives and are not used, except (i) when necessary to recruit new executives and (ii) to secure non-compete and post-termination consulting agreements that are intended to protect the Company's confidential information and conditioned upon the executive not going to work for one of the Company's principal competitors. The Company's equity-based compensation plans and employment agreements do not provide for special payments to our named executive officers upon a change-in-control of the Company. As a result, the Compensation Committee's decisions regarding other compensation elements are not impacted by these arrangements.

Review, Approval or Ratification of Transactions with Related Persons

The Company's Board of Directors has adopted a written related person transactions policy. The Audit Committee reviews the material facts of all interested transactions that require the Audit Committee's approval and either approves or disapproves of the entry into any transaction in which (1) the aggregate amount involved will or may be expected to exceed \$120,000 in any calendar year, (2) the Company is a participant, and (3) any executive officer, director or greater than five percent beneficial owner of the Company's Common Stock (or an immediate family member of any of the foregoing) has or will have a direct or indirect interest. In determining whether to approve or ratify an interested transaction, the Audit Committee will take into account, among other factors it deems appropriate, whether the interested transaction is on terms no less favorable than terms generally available to an unaffiliated third party under the same or similar circumstances and the extent of the related party's interest in the transaction. If a director is a related party of an interested transaction he or she shall not participate in any discussion or approval of that interested transaction, except that the director shall provide all material information concerning the interested transaction to the Audit Committee. Audit Committee Authorization of Audit and Non-Audit Services

The Audit Committee has the sole authority to authorize all audit and non-audit services to be provided by the independent registered public accounting firm engaged to conduct the annual audit of the Company's consolidated financial statements. In addition, the Audit Committee has adopted pre-approval policies and procedures which are detailed as to each particular service, the Audit Committee is informed of each service, and such policies and procedures do not include delegation of the Audit Committee's responsibilities under the Exchange Act to management. The Audit Committee pre-approved fees for all audit and non-audit related services provided by the independent registered public accounting firm in fiscal years 2008 and 2009.

AUDIT COMMITTEE REPORT ON AUDITED FINANCIAL STATEMENTS

Notwithstanding anything to the contrary in any of the Company's previous or future filings under the Securities Act of 1933, as amended, or the Securities Exchange Act of 1934, as amended, that might incorporate this Proxy Statement or future filings with the Securities and Exchange Commission, in whole or in part, the following report shall not be deemed to be incorporated by reference into any such filing.

The Audit Committee of the Board consists of the directors whose signatures appear below. Each member of the Audit Committee is "independent" as defined in the NASDAQ Rules and Rule 10A-3 of the Securities Exchange Act of 1934, as amended (the "Exchange Act").

The Audit Committee's general function is to oversee the Company's accounting and financial reporting processes and the audits of the Company's financial statements, including monitoring the integrity of the Company's financial statements, the independent registered public accounting firm's qualifications and independence, and the performance of the Company's independent registered public accounting firm. Its specific responsibilities are set forth in its charter. The charter is not available on the Company's website, but a copy is attached as Appendix A to this proxy statement.

As required by the charter, the Audit Committee reviewed the Company's audited financial statements for fiscal year ended September 26, 2009 and met with management, as well as with representatives of Deloitte & Touche LLP, the Company's independent registered public accounting firm, to discuss the financial statements. The Audit Committee also discussed with representatives of Deloitte & Touche LLP the matters required to be discussed by Statement on Auditing Standards No. 114, *the Auditor's Communication with those charged with Governance*, as amended by the Public Company Accounting Oversight Board in Rule 3200T.

In addition, the Audit Committee discussed with representatives of Deloitte & Touche LLP their independence from management and the Company and received the written disclosures and letter required by applicable requirements of the Public Company Accounting Oversight Board regarding the independent accountant's communications with the audit committee concerning independence.

Based on these discussions, the financial statement review and other matters it deemed relevant, the Audit Committee recommended to the Board of Directors (and the Board approved) that the audited financial statements be included in the Company's Annual Report on Form 10-K for the fiscal year ended on September 26, 2009.

The Company will provide for appropriate funding, as determined by the Audit Committee, for payment of compensation to the independent auditor for the purpose of rendering or issuing an audit report and to any advisors employed by the Audit Committee.

Reports

The Audit Committee will, to the extent deemed appropriate, record its summaries of recommendations to the Board in written form that will be incorporated as a part of the minutes of the Board. The Audit Committee will also prepare and sign a Report of the Audit Committee for inclusion in the Company's proxy statement for its annual meeting of stockholders.

Limitation of Audit Committee's Role

These are the responsibilities of management.
